NO. 277—SEVENTY-SECOND YEAR

VICTORIA, BRITISH COLUMBIA, FRIDAY, OCTOBER 31, 1930

TWENTY-FOUR PAGES

Canada's Premier And Railway Heads To Consider P.G.E.

Hon. S. F. Tolmie Hopeful of Solution to Provincial Railroad Problem—Valuable Data Secured in Recent Resources Surveys—Protests Liberals Dragging Line into Politics

New Cottonwood Crossing Important

VANCOUVER, Oct. 30.—Declaring surveys conducted along the line of the Pacific Great Eastern had benefited the province through discovery of new resources, Hon. S. F. Tolmie, Premier of British Columbia, supporting J. Loutet, Conservative candidate in the North Vancouver by-election, declared his Government will continue their efforts to dispose of the line to the Canadian transcontinental railways. He added, as soon as Prime Minister R. B. Bennett returns from the London Conference, facts secured in the surveys this summer will be placed before him, when a conference will be held with E. W. Beatty, K.C., and Sir Henry Thornton, railway heads.

JOIN WITH P.G.E.

Premier Tolmie declared he would attempt to have the Dominion Premier, in keeping with his pledge to provide a Pacific outlet for the Peace River country, bring the proposed railway through one of two passes to link up with the P.G.E. Hon. J. W. Jones, newly-appointed Minister of Finance, and Mr. Loutet also addressed the large audience which assembled in Horticultural Hall, North Lansdale.

"This by-election is caused by the resignation of Hon. Ian Macdonald," continued on Page 2, Column 5

REJECT QUOTA FOR PRODUCTS OF DAIRYING

Conference Committee Finds It Impossible to Adequately Control Imports

INCREASE MARGIN FOR EMPIRE WHEAT

LONDON, Oct. 30.—Virtual rejection of a proposal for the quota purchasing of dairy products by Great Britain is said to be contained in the draft reports which have just been presented to an economic committee of the Imperial Conference.

The difficulty is of controlling purchases over a large area and the existing trade treaties between Britain and foreign powers. The experts believe, however, it is understood, that the application of a quota is practicable because purchasing of wheat is more easily controlled than that of other products.

It is now suggested Britain might take 55 per cent of her wheat purchases from the Empire, whereas the original figure discussed was 48 per cent.

The Empire Prime Ministers will meet Prime Minister Ramsay MacDonald at 10 Downing Street tomorrow.

MACDONALD CONFIDENT

SHIPLEY, Yorkshire, Oct. 30.—Prime Minister Ramsay MacDonald is very hopeful of valuable results from the Imperial Conference. He makes this statement in a letter to W. A. Robinson, Labor candidate in the four-cornered by-election fight in Shipley.

"The Dominion Premier has decisively rejected Empire free trade and we are trying to discover the existing trade treaties between Britain and foreign powers. The experts believe, however, it is understood, that the application of a quota is practicable because purchasing of wheat is more easily controlled than that of other products.

"In the meantime the Tory party is cynically disregarding every public consequence in a desperate effort to close its own ranks and in an attempt to exploit the Imperial Conference for its own ends."

Capt. Maclean Tenders His Resignation

Finding that the duties of the office would interfere too seriously with his private practice as a barrister, Captain Alex. Maclean, K.C., has resigned his appointment as Solicitor Advocate for which he was named last week by the Minister of Pensions. Following the announcement of his appointment to the office Captain Maclean investigated the duties which he would have to undertake and ascertained that, if they were to be discharged conscientiously, they would occupy practically all his time. He accordingly has tendered his resignation to the Minister.

LABOR PARTY SPLIT LOOMS UP IN DEBATE

James Maxton, Leader of Extremists, Attacks Gov't Programme

DECLARES LIBERALS DICTATED POLICIES

Calls on MacDonald to Say Whether He Had Accepted Views of Lloyd George

LONDON, Oct. 30.—The sharpest criticism of the content of the King's speech in the House of Commons today came from James Maxton, fiery leader of the Labor extremists.

"I have not been able to find a single, specific item in the Government programme which has any relation to Socialist philosophy or to Socialist plans for confronting the nation's problems," complained Maxton.

THREATENS WITHDRAWAL

"Every part of the speech contains outstanding examples of typical Liberal legislation," Lloyd George has got the policy he wanted without assuming the responsibility of government. If the Government has definitely accepted the Liberal view it is only right and proper that they should say so. In that case the present association between the two sections of the Labor party will be no longer justified.

NO REGULATION

The Conservatives pointed to the heavy loss occasioned on the part of the agricultural community by dumping of wheat in British ports regardless of price, and asked whether the President of the Board of Trade would not take steps to regulate importations in accordance with requirements.

G. M. Gillett, M.P., one of the parliamentary secretaries of the board, replied that the Government had no power to prohibit or restrict the importation of cereals into Great Britain by reason of the prices at which they were offered, and he added, the Government did not contemplate taking any such power.

A member here intervened to suggest that Russian experts competed directly, in type, with British wheat and that was why the British price had declined so rapidly. "The suggestion is quite wrong," replied Mr. Hon. Christopher Addison, Minister of Agriculture. "Russian wheat does not compete with British wheat, but it does compete with Grade 2 or Grade 3 Manitoba hard."

The Minister of Agriculture told the experience of one British mill who bought Manitoba wheat and found that, when the wheat and seeds, etc., were taken out of the Russian, this wheat proved dearer than the Canadian.

INNER HARBOR BASE FOR PLANES REFUSED

Federal Department Declines to Grant Permission for Civic Authorities Advised

In the belief that it was not in the best interests of the public to grant foreshore rights of the Inner Harbor at Victoria for the establishment of a seaplane base for the use of the Pacific International Airways, Ltd., the Department of the Interior, through the deputy minister at Ottawa, has notified civic authorities of its decision in that connection.

The proposal to establish a seaplane base at Victoria has been in negotiation for several months and up to a few weeks ago it seemed assured with the Pacific International becoming interested. Arrangements were completed for a site at the foot of Erie Street on the undeveloped beach, and the company was granted a license to carry out their part of the agreement and it was not until recently that shipping interests asked for specific regulations governing the landing and taking off of planes. Conferences were held at Victoria and finally all matters were transferred to Montreal.

Last Friday Mayor Anson telegraphed the department at Ottawa asking for an immediate decision and the reply was received on Wednesday.

Japanese Troops Pursue Savage Head-Hunters of Formosa to Stop Revolt

TOKIO, Oct. 30.—Two thousand Japanese soldiers and police today pursued savages in the mountainous jungles of Formosa to punish them for beheading eighty-six Japanese and injuring 308 others in attacks in the Musha district, Monday or Tuesday. Six Japanese airplanes, flying over aborigine camps, dropped bombs with uncertain effect. Furious when they discovered bodies of thirty-six children and many women among the killed and horribly mutilated at Musha village, the Japanese began pursuit of the savages. Tropical rains today joined jungle and mountain as allies of the primitive Formosan tribesmen, embattled against the Japanese punitive expedition with its panoply of artillery and other modern weapons. Commanded by Major-General Kaneko, reinforced to 2,000 men, the expedition pushed on in several columns through mountain passes and dense forests, trying to encircle and capture the head-hunters.

The main Japanese force at Musha, after beating off two savage attacks last night, advanced slowly northeastward, encountering only occasional firing.

Aroused by attempts to force them to labor under roads and other public works under Japanese direction, with little or no pay, the aborigines took the warpath in one of their frequent revolts during their twenty-five years of Japanese rule.

Court Rules Provincial Tax Not Deductible From Federal

OTTAWA, Oct. 30.—A legal question of wide interest affecting income taxes was settled today by Mr. Justice Audette in the Exchequer Court of Canada, when he held a person paying income tax to the Dominion Government could not deduct the amount of income tax paid to the Province of British Columbia.

The case arose out of an appeal by Clinton Willis Roensch, of Calgary, Alberta, for a ruling to the Minister of National Revenue. Roensch wished to deduct the sum of \$459, the amount paid by him in provincial income tax, from his assessment for Dominion income tax. The British Columbia Income Tax Act contains a provision providing for a deduction from the provincial tax of any amount paid by way of income tax to the Dominion, but there is no similar provision in the Dominion Income Tax Act.

Earthquake Brings Death and Ruin to Many Italian Towns

Ten Thousand Are Homeless—Many Killed and Hundreds Are Injured—Ancona and Senigallia Badly Damaged by Violent Shock

(Copyright, 1930, by the Associated Press)

ANCONA, Italy, Oct. 30.—An earthquake today brought death and destruction to scores of towns on Central Italy's Adriatic coast, unofficial estimates tonight placing the number of dead at twenty-five and the injured at many hundreds. The property damage was very heavy.

An increase in the death list is feared since many of the injured are in a serious condition and hundreds of mountain villages are still to be heard from.

Not a wall in the city of Ancona, important seaport and shipbuilding centre with a population well above 50,000, was without a crack tonight, and many homes and other buildings were in ruins.

THOUSANDS HOMELESS

About 10,000 persons were homeless and went to bed under army tents hastily assembled by military authorities. Whole families, numbering from four to seven persons were in many cases crowded under a "pup" tent intended for two soldiers. Most of them dragged out their mattresses and blankets from the ruins of their homes.

Many others took refuge aboard trains that happened to be in the railroad yard or in the station and other public buildings. The small city of Senigallia, on the coast, and parks, out of the way of buildings, or in the suburbs.

SOLDIERS ON GUARD

Senigallia was the hardest hit of any towns from which reports have been received. Of ten killed and eight were in the church of Sant'anni when the earthquake occurred and the roof fell upon them. The priest celebrating the mass was among the many injured. Two other priests were also injured. The town was completely dark tonight and armed soldiers patrolled the streets and guarded property while the constables searched the ruins for the bodies of dead or injured.

The proposal of China is that actual silver coins, no longer necessary as a foundation for American currency, be melted into bars and shipped to the Oriental republic to be reconverted into money and dealt out daily by an American commission to the working people of China in return for labor.

Silver-hungry China, Judge Lineberger said, would first of all utilize the money by building roads, and shipping to the Oriental republic to be reconverted into money and dealt out daily by an American commission to the working people of China in return for labor.

The proposal of China is that actual silver coins, no longer necessary as a foundation for American currency, be melted into bars and shipped to the Oriental republic to be reconverted into money and dealt out daily by an American commission to the working people of China in return for labor.

An American named John Street, address unknown, was dead when taken from the wreckage. A. C. James, employee of the company, died while being put into an ambulance. P. H. Mason, also company employee, was found dead. Pilot J. J. Flynn and two passengers, H. Bolover and P. B. Thompson, both of Manchester, England, were injured.

ONE ENGINE FAILED

The airplane, the City of Washington, left Le Bourget Field for Croydon Airfield at 10:48 a.m. Apparently all went well until the plane ran into fog near the coast. One of its twin engines then went out of action, and with only one motor running, Pilot Flynn struggled on in search of a safe landing place. Before he could find it the fog thickened and the plane crashed on a hillside and was destroyed but did not catch fire.

Dr. House, proprietor of a clinic to which the injured were taken, said that all were in a very grave condition and that it was impossible to predict whether they would recover.

SECOND TRIAL OPENS

VANCOUVER, Oct. 30.—The second trial of Billy Stegmann and Ralph Humphreys, on charges of robbery with violence in connection with the hold-up of the Oak Street branch of the Royal Bank of Canada here on December 24, 1929, opened in Assize Court today. Their first trial ended last week when the jury disagreed.

BALDWIN WINS CONFIRMATION IN LEADERSHIP

By Vote of Four to One Conservative Party Supports Leader

GIVEN OVATION IN HOUSE OF COMMONS

Beaverbrook Says His Dis-satisfaction Is With Policy of Party

LONDON, Oct. 30.—Stanley Baldwin remains the leader of the Conservative party. As the former Prime Minister, confirmed in his command by a meeting of his party today, entered the House of Commons after his triumph he was cheered to the echo by the Conservative benches and the demonstration was repeated when Mr. Baldwin rose in his seat to ask Prime Minister MacDonald the order of business for next week.

Mr. Baldwin won the day by a four-to-one vote at the Conservative gathering which was held in private. The vote, it was revealed, was 460 in support of the leader to 116. Most of the leading lights of the party, including peers and commoners, attended.

COLD TO BEAVERBROOK

When Lord Beaverbrook took the platform he was given, on the whole, a rather cold and hostile hearing. The newspaper peer, who for months has been waging a campaign for Empire free trade and has criticized the Conservative leader time and again, declared at the outset that he was not greatly interested in the leadership of the party. But he was interested in the policy of the party, and he was dissatisfied with the present development of the party policy because he believed that the quota scheme of imports, like the referendum once proposed on the matter of food taxes, would be used as a shield and not a spear-point of attack. And he did not imagine the quota plan would satisfy the demands of the Dominions for preferences in the British market, for which concessions they were willing to give liberally in return.

STATES POSITION

Mr. Baldwin, after reviewing the development of the Conservative party's fiscal policy, dealt with the question that had brought the meeting together. He said the matter of leadership, he said, "I have been pressed to resign (cries of 'No'). I do not say that in some circumstances I would have resigned, but I would have given it consideration. Under present circumstances I will not give it my consideration."

FLOODS SWEEP GERMAN TOWNS

Three Centres in Upper Silesia Isolated by High Water

TWO PERSONS DROWNED

BRESLAU, Germany, Oct. 30.—Floods caused by melting snow in the Upper Silesian Mountains today surrounded the town of Ratibor and completely cut it off from all communication with the neighboring territory.

Low lying fields in the neighborhood were covered with from ten to four feet of water from the swollen River Oder, and the farmers were forced to flee to higher ground in boats. Two persons were reported drowned.

The town of Laband was similarly isolated through the overflow of the River Klodnitz, while between Laband and Gletwitz a vast lake was formed.

In parts of Legnitz the streets can be traversed only by boat. The situation is the result of a recent cold snap, bringing the first snow of the winter, which was followed by warm weather that brought a quick thaw.

ARMY OFFICERS HELD

ATHENS, Oct. 30.—General Theodoros Pangalos, one-time dictator of Greece, was arrested at Eleusis tonight after a police raid revealed an alleged plot among army officers and civilians to restore him to his former position of power.

Twenty-seven officers were military prisoners today and a number of allegedly incriminating documents were in the hands of police as the result of exposure of the plot. The arrests were made last night in the home of the director of the telegraph office, which is under the control of Pangalos. The documents were discovered there in a subsequent search of the premises.

Police charged the plot had been timed to nullify a treaty with Turkey which Premier Venizelos had gone to Ankara to sign. The prisoners were army officers and civilians who had attended a secret meeting which was raided by police.

CHARGED WITH THEFT

TORONTO, Oct. 30.—James H. H. Ballantyne, deputy minister of labor in the Ontario Government, who lives in Toronto, was arrested tonight by Detective-Sergeant Albert Johns on a charge of stealing a lady's dress valued at \$15.

ROYAL CITY POLICE FIGHT GUN BATTLE WITH BANDIT GANG

Four Thugs Loot Murrayville Store of \$10,300 in Bonds and Cash and Shoot Way Through New Westminster Police Guard—One Arrest Made

Securities Recovered When Men Desert Stolen Car in Flight

VANCOUVER, Oct. 30.—A man giving his name as Wilfred Towns was arrested late today at a house on West Tenth Avenue, Vancouver, in connection with the robbery of approximately \$10,000 in stocks and bonds, most of which has been recovered, from the store of P. Y. Porter at Murrayville, early this morning. A charge of breaking and entering has been laid against Towns.

The arrest was made by Chief of Police John Cameron, of New Westminster; Chief Constable Robert Miller, of Murrayville, and members of the Vancouver city police force.

Following the arrest of Towns, police officers continued their search for three other men implicated in the hold-up. Late tonight, however, headquarters reported no new developments.

STOLE RIFLES

The four safecrackers took \$10,300 in bonds and cash, from a safe in Porter's store, looted the premises of rifles and ammunition, and were in the act of prying open the inner door of another safe in a second store across the street, when interrupted at their work by an approaching automobile. Leaving the store with what loot they already had gathered, the men jumped into a car, which was later found to have been stolen, and made their getaway. P. Y. Porter, owner of the first store to be looted, was in the approaching car, and quickly made the discovery that his place had been robbed.

FRANCE-ITALY DISPUTE MAY BLOCK PARLEY

Disarmament Discussions to Be Renewed at Geneva Next Week

GERMANY MAY INSIST ON CHANGE IN TREATY

PARIS, Oct. 30.—Diplomats of nations friendly to Italy, France and Italy are striving to bring those two countries into accord on the problem of Franco-Italian naval strength, the Associated Press said today.

With the preliminary disarmament discussions to be renewed next week, at Geneva, there is a belief here that the Franco-Italian naval difficulty may be the principal obstacle to the progress of preparatory work to permit convocation of the International Conference, at which actual limitation or reduction figures will be fixed.

TWO RUMORS AFLOAT
International circles meantime are considering two reports which, if true, are destined to exert a profound influence on the future armament limitation.

The first of these is that France is ready to confer with Great Britain in particular, preparatory to making a statement of her building programme up to 1936 in the domain of cruisers, destroyers and submarines, thus coming in as a fourth party to the London treaty without waiting for Italy.

The second report, also unconfirmed, is that Germany will insist that any failure to secure what she calls the "leveling of armaments" will automatically release her from the disarmament stipulations imposed by the Treaty of Versailles.

Conversations in Paris confirm the willingness of France to negotiate a treaty for the limitation of land armaments on the basis of the status quo of the French Armistice. There is no revision of the Treaty of Versailles.

RESULT OF BRITISH BY-ELECTION TO BE ANNOUNCED TODAY

LONDON, Oct. 30.—South Paddington went to the polls today to elect a successor in Parliament to the late Commodore H. D. King, Conservative, who was first elected in 1924.

The result of the election, as usual with British by-elections, will not be known until tomorrow morning.

Dial Telephones In Operation on Saturday Night

The dial telephones come into use tomorrow night at midnight. After that time it will be necessary to use the dials in making telephone calls. All telephone numbers in Victoria will be changed at that time. They appear in the new directory which has now been delivered. Anyone who does not yet know how to use the dial telephones should receive instruction at the dial demonstration office, 630 Fort Street, opposite the Pemberton Building. This office is open from 9 a.m. to 9 p.m. daily.

PRINCE PLEADS FOR SUPPORT OF CAMPAIGN

Continued from Page 1

of the greatest brotherhood the world has ever known, and, secondly, its readiness to help the building of a similar brotherhood among all nations.

"Tonight's gathering is in itself one of the most convincing proofs of the possibility of international co-operation on a very extensive basis. Here is represented one-quarter of the entire human race, comprising men of different races, languages and traditions, but united under the crown of our common tradition of loyalty.

NO RESORT TO ARMS

"They enjoy complete civil and political liberty. They maintain their separate nationalities. They pursue their own methods of development. They have passed beyond the state at which it is the duty of a nation to assert its independence. Differences are settled, not by a resort to arms, nor even by formal arbitration, but by friendly meetings and conversations along the table."

BALDWIN WINS CONFIRMATION IN LEADERSHIP

Continued from Page 1

Loud and prolonged cheering followed, as he continued:

"I will not give it my consideration except on one condition—I always bow to the will of my party. And if after consideration you think fit to tell me you desire another leader, I will walk out with no malice in my heart; will do nothing to queer the pitch of whoever you choose as my successor, providing that if you do not denounce my leadership today, I shall expect more loyalty than in the past few months."

SECRET BALLOT

Amid loud cheers, Mr. Baldwin then left the meeting while the secret ballot was carried out.

Col. John Gretton, said to have presided over the meeting of members, dissatisfied with Mr. Baldwin's leadership, was the chief speaker supporting a change in leadership. He declared Mr. Baldwin's policy did not go far enough.

Mr. Baldwin's chief supporter was Lord Hallahan, the former Douglas Hogge, member of the Baldwin Ministry from 1924 to 1928, and in the last year of that period Lord High Chancellor. He declared that without a quota scheme of wheat purchases such as advocated by Mr. Baldwin, any tariff would be useless because it would not keep out cheaply-dumped Russian grain.

Admitting that Mr. Baldwin might be weak at times and that he was disliked by the press, Lord Hallahan said his other qualities far exceeded his demerits. "Who could succeed Baldwin," he demanded.

"Yourself," some of the members cried.

But Lord Hallahan shook his head in the negative.

TO STUDY ROYAL CITY FAIR

NEW WESTMINSTER, Oct. 30.—Re-establishment of the Provincial Exhibition here is to be considered at a special meeting of Fraser Valley Reeves in the City Hall on November 7. Reeve Tom Reid, of Surrey, will be chairman, and representatives of Farmers' Institutes will be asked to attend the meeting.

Japan expects a bounteous rice harvest this season.

GROSSMITH'S Face Powder and Cream

Face Powder sifted through fine silk gauze and fragrant with such famous Oriental Perfumes as "Palm-Nana," "Sham-El-Nasim," "Tang-Ilang" or with the wistful, lingering odor of "Old Cottage Lavender," "Wild Honey-suckle" or "Jasmine." Snow white, cooling face cream, making an ideal base for the delightfully soft and clinging powder. At most druggists and department stores.

make everything for beauty

MAROONS HAVE TWENTY-FOUR WORKING OUT

Montreal Ice-men Have Four Squads Practising for Regular Berths

CHARITY GAME WILL BE PLAYED TOMORROW

MONTREAL, Oct. 30.—Practice of the Montreal Maroons and would-be Maroons again failed to answer the question that has almost become a standing joke in the dressing rooms: "Who is going to Windsor?" Of the twenty-four men now trying out for regular berths on the Maroon team, at least nine will be sent to the Windsor Bulldogs, and the battle for the steady places has made the twice-daily workouts almost as spirited as the regular league games which start a fortnight hence.

Four regular squads continue to work out at the Forum, although the personnel of each continues to change daily.

Saturday's preseason charity game promises to be one of the keenest tussles of the season. Maroons from last year's amateur ranks will match speed and skill with the regular Montreal squad, making the game in reality an amateur-professional struggle. The game will probably help Manager Munro decide the complexion of this year's squad.

SINGER GIVEN BIG RECEPTION

Mme. Eva Baird Shows Transformed Art in Recital at Empress

SPLENDID PROGRAMME

Admirers of Mme. Eva Baird's musicianship found their admiration appreciably extended last evening after hearing her magnificent recital at the Empress ballroom.

A great many tributes have been deservedly paid to her and her work in years gone by, but they fall far short of what is now her due. It is no exaggeration to say that most of her audience who have not heard her for two or three years were both amazed and delighted at the change that has been effected. Although one can still detect in the lustrous mezzo-soprano of today the splendid contralto foundations on which the voice has been built up, one recognizes that both voice and style have been almost completely remade, and that she is now in possession of a rarely beautiful instrument which has the potential warmth, body and dramatic depth of the contralto, with the brightness, suppleness and brilliancy of the pure soprano.

FINE STUDENT

Always a remarkably fine student, Mme. Baird has never failed to make unusually interesting programmes, and last evening's was no exception. Little details are often important clues, and the mere fact that she took her audience into consideration sufficiently to supply translations for her Italian, German and French songs betrayed a characteristic which helped towards her success. For she sang with rare sympathy, the special sentiment of each number was recognized and presented with unerring intention.

On sure ground so far as her voice and programme material was concerned, the singer seemed never at the slightest loss in trying to express any particular shade of thought from exultation to despair. The plastic and vigorous nature of the voice was wonderfully revealed in two of the opening group particularly, Durante's "Danza-Danza" and the almost equally bright "Per la Gloria d'Adorari," in each of which a brilliant coloratura style was suggested.

SPECIAL FAVORITES

Limitations of space prohibit individual mention of all her succeeding songs, but especially lovely were the Respighi "Nevicata," in the velvet soft, hushed and gentle tone of which one seemed to see the falling snow; the very tender and profoundly thoughtful Strauss "Al-

Fables and Foibles

Being Verse and Worse

By H. T. M.

THE GHOSTS UPON TAVERSTOCK LEA

'Tis a blood-freezing sight, on a wild Winter's night,—
The Ghosts upon Taverstock Lea:
Three huddled-up wretches go leaping the ditches
In shade of a black Galloway tree!

For, long, long ago, in the diet and the snow,
One night, upon Taverstock Lea,
In high-dudgeon blended, three Witches descended
With a hop, and a skip, and a "Whereeee!"

In steepjack hats, with the mangiest cats
They prance in a bone-creaking ring,
And, cracking her knuckles, each hairy hag chuckles,
"Ho, sister! And what do you bring?"

"A succulent child!" the ringleader smiled.
"A Duchess!" the second avowed:
"A Fiar as fat as a Burgundy vat!"
The third, in a pantomime, bowed.

"Then hail to the stewing, the magical brewing!"
Together, they cackled in glee.
Then scurried to settle a masadon kettle
At foot of the black Galloway tree.

Like mammoth black maggots, they hunted up faggots
Which blazed, to the agonized stars,
Of the Duchess and child, and the Fiar, beguiled
By the spells of these sin-withered crones.

But they were stoking and gleefully croaking
The Devil was stroking his chin
Beneath them, in wonder, to what sort of plunder
Was brewing, and what of the din?

And he noticed his ceiling was cracking and peeling,
So thought to himself, with a grin,
"It seems that the floor of old Taverstock Moor
Is rather uncommodious thin!"

So he hacked at the roof with his horrid and a hoof
Then laughed with Satanical fury
As "Taverstock crumbled, and after it tumbled
Three Witches, and cats, and a-pure!"

All scratching and hopping, with bleary eyes, popping,
They screamed in the wildest diabolism—
Then into the smelter, they tumbled to smelter
For ever, as flesh for the Devil!

And the Galloway-tree creaks and the chilly wind shrieks
As yet, upon Taverstock Lea,—
And ghosts of the Witches go leaping the ditches
With skeleton cats . . . and a "Whereeee!"

the Canadian lines it would be more satisfactory.

Dr. Toimie reviewed negotiations which resulted in surveys of the P.G.E. country, stressing that the province was paying only one-third of the cost. He said these surveys had established existence of rich resources along the P.G.E. and in the Peace River Block, and these resources alone were worth more than the whole cost of the survey. A new crossing of the Cottonwood River had also been located, said the Premier, which would provide an easy and suitable crossing when the line came to be extended.

GOOD APPOINTMENT

The Premier said financial conditions at the present time made it most difficult to dispose of the P.G.E.

Speaking of the appointment of Hon. Mr. Burden to London, the Premier said he had good general knowledge of British Columbia as any man in the province, and was fitted to give first-hand information to people in the Old Country.

The Premier said he had good general knowledge of British Columbia as any man in the province, and was fitted to give first-hand information to people in the Old Country.

ROYAL CITY POLICE FIGHT GUN BATTLE WITH BANDIT GANG

Continued from Page 1

Believing that they were heading for New Westminster, C. B. Finlay, one of Porter's friends, picked up Chief Macklin at Langley Prairie and gave chase, after the chief had notified Westminster police to guard the bridge. Constables Olsen and Gurney, of the Westminster force, arrived at the bridge just as a car came speeding across in the dense fog at 2:40 a.m.

GUN CHASE

Constable Olsen got out of the car and ordered the approaching machine to stop. With a sudden swerve the bandits nearly ran over him, and answered his hail with a number of shots, presumably from the stolen rifle.

Returning the fire with their revolvers, Olsen and Gurney sped up the hill after the desperadoes, through the east side of the city. There was a sudden smash of glass, and the long barrel of a 30-30 rifle was pointed through the rear window of the fleeing car. Then followed a lively exchange of shots on both sides, accurate aim becoming difficult from the pace at which both machines were proceeding and from the fog.

DROPPED BONDS

As the police vehicle was gaining upon the thugs along Royal Avenue, at the edge of Queen Park, the men threw out a safe drawer containing \$10,000 in bonds and \$75 in stamps, fled from the machine and disappeared in the bush. Several more shots were fired from behind a tree before the constables lost track of their men.

By 3:30 a.m., forty police from New Westminster, Langley, Cloverdale, Burnaby and Provincial men had made a thorough search of the park, asylum and penitentiary grounds, under direction of Chief John Cameron.

HUDSON'S BAY CHIEFS ARRIVE IN VICTORIA

Charles V. Sale, Governor of Company, and Officials on Tour of Inspection

Charles V. Sale, of London, England, governor of the Hudson's Bay Company, arrived in Victoria late yesterday afternoon from the Mainland and will remain in the city until Sunday, when he will start on his return journey to the Old Country.

Arriving in Canada on August 22, Governor Sale has visited most of the important centres of the Dominion and has inspected the chief centres of the company's business, which extends from coast to coast. Today he will pay an official visit to the Hudson's Bay store at the corner of Douglas and Plagard Streets.

With Mr. Sale on his official tour of inspection are B. A. Chester, general manager for the company in Canada; O. W. Allan, chairman of the Canadian committee, and E. V. Tilney, secretary.

Regimental Orders

5TH (B.C.) COAST BRIGADE, C.A. Brigade Orders by Lieut-Col. T. B. Monk, V.D., Commanding 5th (B.C.) Coast Brigade, C.A., Headquarters, October 30, 1930.

Part I

Annual Inspection Arms, Clothing and Equipment. The annual inspection of arms, clothing and equipment by the Armament Officer, M.D. No. 11, will take place on Monday, November 3, and following days.

Sports. Friday nights will be devoted to sports, rifle shooting, swimming, etc. All members of the brigade are requested to attend and take part.

Recruits. Vacancies exist for a few desirable young men who desire to take up signalling, gunnery or range-taking. Recruits may be attested on Friday evenings.

Part II

The Commanding Officer is

Relieve BACKACHE with DODD'S KIDNEY PILLS

Dr. Toimie claimed the Liberal regime had made no effort to meet the P.G.E. situation, but he paid tribute to the late Premier Oliver for taking the line out of politics by appointing a non-partisan board of directors. He scored Mr. Pattullo for making the P.G.E. "a political football" and for his attempt "to get me to evolve a programme when he couldn't evolve one for himself."

The Premier said, in his belief, the best thing to be done was to turn the line over to the private railway companies, as operation of a line required highly specialized knowledge. By linking the line with the Peace River and developing and settling contiguous lands, he said he believed the best interests of the province would be served.

OUTSIDE OFFERS

Big English and United States syndicates had made offers, said the Premier, but he believed that if an arrangement could be made with

Old Dutch is safe
It contains no scratchy grit

Try This Test

This test proves it. Sprinkle a little Old Dutch on the porcelain drain board of your sink; take a smooth coin, lay it on top of the cleanser and rub gently. You won't feel or hear the scratching of harsh, gritty particles. Avoid scratchy cleaners. Scratches ruin surfaces and make lodging places for germs and impurities.

Old Dutch removes the dirt—not the surface

Please do not make "Curiosity Calls"

You will find the dial telephones easy to use

THE dial telephone system will come into use in Victoria on Saturday night, November 1, at midnight. If a large number of people call up their friends in order to try out the dial telephones, the amount of telephone traffic will be so much above normal that it will seriously hamper us in getting the new apparatus working smoothly. Therefore we urgently request you not to use the telephone unnecessarily during the three days following the change in the system. The job we have in hand is extremely complicated, and we ask you to help us by refraining from making "curiosity calls."

BRITISH COLUMBIA TELEPHONE CO.

Telephone System Changes Saturday Night, November 1, at Midnight

COAL OUTPUT IN PROVINCE HAS LESSENED

Heavy Shrinkage Continues In Tonnage Produced For Nine Months

HALF B. C. AGGREGATE IS MINED ON ISLAND

Coal mined in British Columbia for the first nine months of the year amounted to 1,381,644 tons, a drop of 310,696 tons over the same period in 1929. It was stated yesterday by Hon. W. A. McKenzie, Minister of Mines and Labor, Vancouver Island tonnage for the period totaled 719,926 tons, a decrease of 130,438 from January to September inclusive last year. The tonnage reported for the nine-month period in the current year were as follows:

Vancouver Island, January to September inclusive, 719,926 tons; September only, 87,181 tons; Nicola Peninsula district, 137,867 tons for nine months; September only, 13,237 tons; Northern district, 1,066 tons, nine months; East Kootenay district, 523,045 tons for nine months; 56,563 tons for September; total for the province, 1,381,644 tons in first three-quarters, and 166,981 tons for September.

This compares with an output of 1,692,340 tons for all British Columbia collieries from January to September, 1929, of which Vancouver Island mines furnished 890,364 tons.

Marked decrease in tonnage mined in British Columbia during the last ten years has already led to definite steps to study the question by the appointment of a permanent coal research committee, and in other ways. The situation has also been actively drawn to the attention of the Dominion Fuel Board, which recently undertook a first-hand investigation into the subject in this province.

FIVE ARE ARRESTED IN CONNECTION WITH ROBBERY AT EVERETT

SEATTLE, Oct. 30.—Three Chinese and two white women were held on open charges in the city jail here today by police for investigation in connection with the disposal of money stolen in the \$44,300 robbery of the Citizens' Security Bank at Everett last month. A large amount of the bank notes were deposited in a Vancouver bank by two Oriental men a short time after the robbery.

The five gave their names as Jim Eng, thirty-two; Charles Sing, fifty-four; Jim Young, thirty-two; Louise Bates, thirty-three, and Deo Burke, twenty-nine. Officers said they found a small quantity of narcotics in the apartment where the five were found.

ATTEMPT TO KIDNAP MONTREAL DOCTOR IS STOPPED BY POLICE

MONTREAL, Oct. 30.—A daring attempt to kidnap a wealthy Montreal doctor was foiled last night, it was stated at Detective headquarters today. Four men were arrested at the time and another taken into custody today. It was stated that the intended victim, Dr. Paul E. Lalanne, was to have been held for ransom. Headquarters stated that detectives went to Dr. Lalanne's apartment last night, following an investigation of rumors, and concealed themselves, later taking into custody four men who arrived shortly afterwards.

SECOND INQUIRY ON BLIND IS NEEDLESS

Full Investigation Was Held Into Broom Factory Conditions Within Recent Weeks

Regarding the recent inquiry into conditions at the broom factory for the blind at Vancouver, conducted by Adam Bell, a member of the Male Minimum Wage Board and the Department of Labor, as conclusive, no further investigation into the operation of that institution will be ordered, it was announced by Hon. S. L. Howe, Provincial Secretary, yesterday. The few changes recommended by Mr. Bell have been put into effect, and conditions in the factory are now regarded as excellent.

Request for a second inquiry into the factory, petitioned for on the part of some of the disabled workers there, was made to the Government recently. G. G. McGeer, K.C., counsel for the petitioners, will be informed that a second inquiry is regarded as unnecessary, the first having been carried out exhaustively into all phases of employment conditions at the institution.

TWO FOUND BRUTALLY MURDERED IN ONTARIO

PARRY SOUND, Ont., Oct. 30.—A maniacal slayer is suspected by the police to be responsible for the deaths of two Finlanders found on a lonely stretch of the Canadian Pacific Railway line near Pickering. Police authorities recall another foreigner died in similar circumstances, a year ago, at South Parry Sound.

The Finlanders, found Sunday, had their heads crushed in. K. Kolliva, there, was dead when brought up by the engineer on a through train, while K. V. Elomona, twenty-two, was dying, with a coat carefully folded beneath his head. Though the skulls were crushed the bodies were unscathed and were neatly arranged.

W. L. Haight, Crown attorney, said it was impossible for the bodies to have been pitched from a train. The men had been struck on the head with a heavy, blunt instrument.

DOWN COMFORTERS

We are showing a splendid stock of Down Comforters, Rayon Bedspreads and Soft Pure Wool Blankets at most reasonable prices. These would make suitable Christmas Gifts. A deposit will hold your selection for future delivery. Our stock of Cushions and Quilted Covers has arrived. Make your choice now.

ROTARY CLUB TOLD WORK OF CABLE SHIPS

Captain C. N. C. Fleming Outlines Difficulties and Disappointments

ARE ONLY MAINTAINED AT ENORMOUS EXPENSE

The difficulties which face those who link up the continents by means of submarine cables were graphically described at yesterday's luncheon of the Rotary Club by Capt. C. N. C. Fleming, of the cableship Restorer. The speaker described the construction of a cableship, which is capable of carrying some 3,000 miles of cable in tanks reaching from the keel to the main deck with a diameter of from thirty to forty feet. Huge winches are used for lifting the cable, these being capable of bearing a strain of twenty-five tons, which is considerably more than the cable itself could stand.

In laying a cable it was essential to pay out sufficient slack in order that when the grapnels lifted the right there repairs should not be a greater strain than from six to eight tons.

COST OF CABLEGRAMS
"Those who complain of the cost of cablegrams," said the speaker, "are answered by the enormous cost of laying the cables and keeping them in repair."

Turning to the scene of operations at daybreak it was discovered that the berg had drifted back and had settled on the cable at exactly the same spot.

On another occasion, off New York, it was necessary to repair a damaged cable. Tests were made which indicated that the damage was at the point of contact with the shore. The cable running up the beach had been found to have been uncovered and badly burned. Further investigation revealed the fact that it had been used by an enterprising party of pickpockets on which to hang their kettles.

DIFFICULTIES OVERCOME

The speaker recalled one occasion when an iceberg had settled on the cable, specially armored to withstand damage from bergs. The cableship had hurried to the spot and had towed the berg a mile and a half, casting it off at dusk.

Returning to the scene of operations at daybreak it was discovered that the berg had drifted back and had settled on the cable at exactly the same spot.

On another occasion, off New York, it was necessary to repair a damaged cable. Tests were made which indicated that the damage was at the point of contact with the shore. The cable running up the beach had been found to have been uncovered and badly burned. Further investigation revealed the fact that it had been used by an enterprising party of pickpockets on which to hang their kettles.

RESTS ON BOTTOM
Many people, continued the speaker, believed that, in great depths of water, the cable did not sink to the bottom owing to the density of the water. This was not the case, although there were times when a cable had been put out and the work paid for before it actually sank to the bottom. He pointed out that it was essential to pay out the proper quantity of slack as a cable would break if it were fastened from pinnacle to pinnacle at the bottom of the sea.

The Atlantic earthquake last November had resulted in the breaking of twelve out of the twenty-two cables, one of which, running through the Gulf Stream, had not yet been mended.

Delightful vocal solos were rendered at the luncheon by Miss Kaye Frances Ede, accompanied at the piano by Miss Gwendolyn Harper.

DEPORTATION ORDER CONFIRMED BY COURT

Married Chinese Woman Must Return to China Because of Illegal Entry

VANCOUVER, Oct. 30.—Sympathy was expressed for nineteen-year-old Gee Shu Moy by Mr. Justice Gregory in Supreme Court on Wednesday, when he confirmed an order for her deportation to China. She has been a resident of Canada six years, is married to a British Columbia-born Chinese, and is the mother of a five-month-old son.

These circumstances, however, did not help her to avert the law which was invoked by Canadian immigration officials. They alleged that she had not acquired a Canadian domicile, because according to them, she entered the country illegally.

Although Gee Shu Moy, wife of Lim Pat Chung, Keeler Street, is a British subject through marriage, her citizenship rights were not recognized, in view of the manner in which she entered Canada.

PASSED AS DAUGHTER

When thirteen years of age, the girl was purchased for \$100 in China and brought to Canada by Wong Chung Fong, who passed her off as his own daughter, who had been born in British Columbia. She was duly "landed" from the steamship Kaga Maru at Victoria on October 25, 1924, but no certificate was issued to the child. She lived with her foster father in Vancouver, where she worked in a restaurant, and Wong Chung Fong kept all her earnings.

The marriage of the girl in her nineteenth year to Lim Pat Chung was opposed by the foster parent.

U.S. Political Campaign Is Filled With Uncertainties As Balloting Draws Nearer

NEW YORK, Oct. 30.—With quickening step, as its great figures are paraded in a final rally, the United States political campaign is trooping hither-and-thither into history. Its last days, like its first, are filled with confusion and uncertainty.

Nationally, the wandering attentions of the voter are invited with growing insistence into a single issue—Herbert Hoover and his twenty months in the White House. But locally, in many a precinct, the voice of national politics is drowned

by a dispute over prohibition, or party regularity, or the personality of a minor candidate. Even 3928 was scarcely richer in its jumble of issues than is 1930, five days before election.

Today the country had the additional word of two such eminent public men as Andrew W. Mellon and Alfred E. Smith that the record of the Republican administration at Washington stands out as a commanding promontory on the present political map of the nation. Speaking last night in Washington, Secretary Mellon asked for the election of a Republican Congress

to uphold the lands of a President, whose leadership he praised, in a time of national trouble. Speaking in New York, former Governor Smith asked for a Democratic Congress as a rebuke to the administration, and to provide a leadership which he said was lacking at the capital.

With increasing emphasis, utterances like these have come recently from scarcely less distinguished sources. Others are to follow. But there is no sign that Mr. Hoover, the centre of it all, will address any word on this subject to his fellow citizens.

The business situation, and what the President did and did not do about it have formed the arrowhead of the Democratic attack. Prohibition has contributed its share to the dispute, and the Republican tariff bill became a law just in time to carry its special load of controversy to the political stump.

Nearly all of these considerations have become more or less intertwined with various state campaigns. No responsible party leader denies that on the basis of all the issues jumbled together, the Democrats have made a really serious bid for control of the next House

of Representatives. Even when they speak privately, the Democratic politicians insist they expect a majority. The Republicans, basing their opinions on a different set of reports from the field, insist privately that while the margin of control will be reduced materially, the majority will remain Republican.

SENATE SITUATION
The Senate is quite another proposition. One third of its membership comes up for election in 1930, and many of the states electing provide no possibility of a turnover. In the limited field remaining, Republicans and Democrats agree that the Republican majority will be reduced, but that only an epochal landslide could insure Democratic control.

Into all of these mathematical calculations enters eventually the unknown quantity known as "X." It stands for the Western independents, that group within the party which has stood so often against the major policies of President Hoover. What comfort can Mr. Hoover expect, the Republicans ask themselves, from Republican majorities in Senate and House so slender as to give the independents the balance of power?

PLAINTIFFS' EVIDENCE IN FIRE CASES IS IN

Court Adjourns Trial Until Mr. Justice W. A. Macdonald Is Through With Assizes

The taking of evidence for the prosecution in the list of actions against the E. & N. Railway Company in which the latter is held liable for some \$45,000 damage to property near Shawigan Lake has been concluded as far as the first branch of the case is concerned. This is the question of the liability of the company. There is a second branch of the case which has to do with the settling of the amount of damages should the company be held liable.

As the trial judge, Mr. Justice W. A. Macdonald, has to leave the city for the interior on assize court duties, there has been a postponement of the trial in this consolidated action until he is at liberty again. The defence on the point of liability has yet to be submitted as well as all the evidence relative to the question of amount. J. E. McMullen, counsel for the railway company, pressed for the taking of all the evidence on both branches of the case before judgment was given. There will therefore be no interim judgment as to liability until His Lordship is ready to decide the whole matter in dispute.

The railway company takes the ground that the fire which destroyed the properties of the plaintiffs was not due to the company as alleged by the plaintiffs.

WELL-KNOWN RESIDENT OF VICTORIA PASSES

There passed away yesterday, at St. Joseph's Hospital, after a lingering illness, during which he had undergone a serious operation, Hedley Hammond Bailey, 1275 Johnson Street, aged sixty-nine years. Mr. Bailey, who was the son of a British missionary, was born in India and came to Victoria with his father, James C. Bailey, to establish a tea-blending factory. This work was begun in 1899 and was carried on successfully in the old Bastion Square until 1907, when his father was appointed to the rectorship of the Seamen's Institute. For the past ten years Mr. Bailey had retired.

He leaves to mourn his loss, his widow, Mrs. Mary Bailey; four daughters, Mrs. Walter Spay, Mrs. Rose Benson, both of Victoria; Mrs. Lorne Grasse, of Vancouver; Miss Edith Bailey, R.N., of Port Angeles; three sons, Mr. Fred Bailey, Mr. William Bailey, both of Concrete, Wash.; Mr. Albert Bailey, a member of the staff of the Saanich High School; and two grandchildren, Miss Edith Benson, of Victoria, and Miss Mary Helen Bailey, of Concrete, Wash.

The funeral will take place tomorrow afternoon from McCall's Funeral Parlors, at 2:30 o'clock.

Obituary

CAMERON—The funeral of William George Cameron will take place this afternoon at 2 o'clock from McCall Bros. Funeral Home. Interment will be made in Royal Oak Burial Park.

LAWRIE—The death occurred at St. Joseph's Hospital yesterday of Percy Lawrie, of 708 Suffolk Street, aged sixty-two years, born in London, England, and a resident of Victoria for the past thirty-six years. He is survived by three brothers, Edwin T. Lawrie, Henderson Lawrie and Stanley Lawrie; also one sister, Mrs. A. R. Colby. The remains are resting at Hayward's B.C. Funeral Chapel, where funeral services will be held on Saturday afternoon at 2 o'clock. Interment will be made in Ross Bay Cemetery.

WOODS—The funeral of Cecil Woods, who passed away at the Royal Jubilee Hospital last Tuesday, took place yesterday afternoon, leaving Sands Funeral Chapel at 1:50 o'clock, and at 2 o'clock services were conducted at St. Paul's Church, Esquimalt, by Rev. F. C. Chapman. The hymns sung were, "Lead, Kindly Light" and "The King of Love My Shepherd Is." The casket, covered with flowers, was placed on a gun carriage, draped with the Union Jack. Three volleys were fired and the bugler sounded the Last Post.

BEATTIE—Funeral service for Commandant Walter Beattie, who passed away in this city on October 27, was held yesterday evening, the cortege proceeding from the S. J. Curry & Son Funeral Home to the Salvation Army Citadel, where services were held at 8 o'clock. Many friends were present to pay their last respects to Commandant Beattie and beautiful floral tributes covered the casket. Brigadier J. K. Ogilvie, of Vancouver, had charge of the service and was assisted by Y. P. S. M. Turton, Adjutant Fred

Court Vancouver, A.O.F.
FUNERAL NOTICE
Members of above and sister Courts are earnestly requested to be present at the funeral of our late brother, W. G. Cameron, taking place from the McCall Funeral Parlors on Friday, 31st inst., at 2 p.m. A. E. GREENWOOD, Secretary.

Merrett, Raymond Archer and Adjutant Reader, Vancouver. The hymns, "Jesus, Lover of My Soul" and "Abide With Me," were sung together with a selection by the Citadel Singers. Following the service the cortege, led by the Salvation Army band, proceeded to the C.P.R. depot, the remains of the late Commandant Beattie being forwarded to Vancouver, where interment will be made. The following acted as pallbearers: Corps Sergeant Major S. Martin, Y. P. S. M. Turton, Treasurer J. Scarff, E. Ealing, R. Hayes and Mr. Roskelley.

The Government of the Union of South Africa will aid merchants in the enforcement of agreements made with those buying on instalments.

POPPY SERVES AS TRIBUTE TO HONORED DEAD

"Flower of Remembrance" of Those Who Paid Sacrifice on Battlefields

SATURDAY, NOV. 8, DATE OF TAG DAY

The sacred significance of the Poppies, which blossoms in the fields where armies fought and in cemeteries where warriors are sleeping their last long sleep, is impressed upon the mind with redoubled force when the period of Armistice anniversary comes round. Then the poppy takes its place as the "flower of remembrance," and through its medium the people pay their tribute to the honored dead.

A remarkable poppy story is told by C. Hensley, volunteer worker at the Armistice Period, Red-Cross headquarters. During a journey through the battlefields there he went to visit his son's grave, his intention was directed to an astonishing feature which has developed in the poppies growing on Passchendaele Ridge.

CROSS OF SACRIFICE
In the centre of the flower, where the petals are of a darker hue, the dark portion takes the form of a cross. The four arms are clearly defined, and a "cross of sacrifice," which nature has designed, pays tribute to the honored dead who fell on the historic ridge.

This development is declared to be of post-war origin and is confined to Passchendaele Ridge. Mr. Hensley picked poppies from several places, all along the road from Ypres to Arras, to test the latter part of the statement, and he found the cross was marked on no poppies other than those growing on Passchendaele Ridge.

TO BE SOLD IN STREETS
Poppies, made by disabled veterans in the Red Cross Workshop, will be sold on the streets of Victoria on Saturday, November 8, E. Snowden, a member of the Armistice Period Committee, will direct operations, assisted by an efficient band of loyal workers.

Mrs. Ellis, Women's Canadian Club; Mrs. H. P. Thorpe, Canadian Legion Auxiliary; Mrs. Alcock, Army and Navy Veterans Association; and Mrs. McManus, Ladies' Catholic Guild, will each take charge of a quarter of the city and assume responsibility for the work in their respective areas.

Arrangements for refreshments will be made by Mrs. Booth, Tuberculosis Veterans' Auxiliary. Eight ladies of the Victoria Business and Professional Women's Club will assist at headquarters, and Girl Guides, Boy Scouts and Sea Cadets will act as messengers.

In order to cover the city effectively and insure complete success, a large number of taggers are required. Volunteers for this work are asked to communicate with E. Snowden, campaign headquarters, 628 Fort Street. Telephone 642, 906.

OAK BAY GIVES WORK UNDER RELIEF PLAN

Only Twenty-Seven Names Registered, Some of Whom Have Since Found Employment

The unemployment situation in Oak Bay was discussed at last night's meeting of the municipal council upon receipt of a communication from P. Philip, of the Department of Public Works, which indicated that some relief in the Government scheme might have to be taken into consideration.

Reeve Hayward explained that it had been ascertained that the 30 per cent grant from the Federal and Provincial Governments did not include any material, other than actual hand implements and materials such as sewer pipe, manufactured in the municipality.

R. F. Blandy, municipal clerk, stated that he had twenty-seven names of unemployed men upon the records. A few of these had already obtained work, while twenty-four had been officially notified. At the present time ten men were employed.

"If we find ourselves pressed," said Mr. Blandy, "it may be better to divide the workmen into two shifts, working alternate weeks, but present indications, I am glad to say, point to the fact that this will not be necessary."

Reeve Hayward interjected at this point that one applicant for work had arrived in a large limousine.

The letter from the Department of Public Works was received and filed by the council.

Boreleigh—"I understand your new Summer home is situated at the edge of a steep cliff."

Richleigh—"Yes, that's right. I hope you'll drop over some time soon!"—Pathfinder.

Just Roamin' Around

BY TWO ROVERS

"Rover! Rover!" I called, and as he seemingly paid no kind of attention to me, I called again. "Rover!"

"A habit is something, Rover," I continued, "that we humans wear, and often wear threadbare."

"Habit is of two kinds—bad, hard to get rid of; and good, hard to acquire and harder still to keep. Rover, and you and I have our habits, good and bad. Listen to me!" But he was half asleep, so I pretended he heard and proceeded, to myself.

We are blue today, old top, and in an inoperative mood. A good friend has just operated on us, on our eyes; opened them, in fact, to a very serious fault, or habit, in which we have been indulging to a large degree all these blooming years. It was about time we had that operation. It has done us no good, and we are now a sight to be pitied and considered as any dear old doctor, tender as any of the many nurses we have had from time to time, and used his knife.

He first removed, I hope, a running comment of 'self,' and one's own affairs; then he flattened out an old prejudice, a-butting-in-of-their-stories; adjusted an aspect, seemingly not interested in what someone else is saying sort of a thing.

"So I said, 'Cut it out, doctor!' and he cut it out, and I hope to goodness it stays cut out—and put Rover, wake up!" The old doc looked at me, reproachfully, and "butting-in" on his dreams of bones and curried lamb, or whatever they dream of, I am sure he and I were both thinking of the same thing.

"Dog-gone this habit of butting-in conversationally!" "Did he hurt you when he operated on you?" Rover asked. "Not at all," I said, "I 'altered' the old doc, and he was not used. But one has to brace oneself a bit before one takes one's medicine. The operation itself was so long and tedious, but the healing up of the old wound to one's feelings and self-pride is said and slow work. But, believe me, getting well is OK. One is one's own boss, and he is quite battler! Let us hope, Rover, that there be no relapse, since, this time, there was no bill, but then you see—Bill we must hope, not padding!"

"Operation, like these, are only part and parcel of the work of editing our Life's work, that endless job of day and night, and of the old, accounting our talents, auditing our likes and disliking our dislikes, in fact, putting our Life's Book in order, such as editing, omitting 'chestnuts' there, eliminating, adding to, erasing bits, amending, stains, etc., elaborating, but we must hope, not padding!"

And, lastly, crossing the 't's' and dotting the 'i's'; and so, getting ready to write 'finis' with a good flourish, and 'the end' with a flourish, and a sigh, but at least with a happy ending, and this for our last quotation: 'All's well that ends well.'

"How about a kick?" says Rover. "Well! I have one coming; that this operation should have taken place years ago. Would have saved me a lot of trouble, and anxiety. But the other doctors diagnosed our true symptoms wrongly. Rover dog-nosed them all right, but though he said nothing, he thought a whole lot."

Let the cover be what it may; The dedication—true; The frontispiece—a picture say; Life's title: "I love you" long. The pages short, or pages long. The print too clear, or too bold; Then all is good and nought is wrong.

The end: "My tale is told!"

As Rover remarked when he sat down on the ice-box.

TO SET DATES FOR TRIALS OF ACTIONS IN COUNTY COURTS

On Monday Judge Lampman will hold a sitting of the County Court for the purpose of fixing dates for the trial of the following cases: The trial of the month of November. The trials on the list are as follows:

ASK REDUCTION IN PRICES FOR GASOLINE HERE

Resolution From Conference To Be Forwarded to All Producing Companies

SUGGESTION TO HAVE FEDERAL COMMISSION

Following a conference of representatives of the Victoria Branch of the Automobile Club of British Columbia, Victoria Motor Dealers Association and service station operators yesterday afternoon, a resolution was passed aiming at a reduction in the price of gasoline and a request for a revision of prices of the producing oil companies in British Columbia.

At the conference it was announced that the price of gasoline to the automobile owner in Victoria is nearly 6 cents a gallon more than Seattle and 6 cents a gallon higher than in Toronto, and that during a period of years the tendency has been towards an increase on the Pacific Coast and a decrease in other parts of the Dominion.

The conference, which was held at the Chamber of Commerce, was presided over by Rev. Montague Bruce, president of the Automobile Club, who outlined the reasons for the meeting. Mr. Bruce stated that it was not the intention of the interested companies in Victoria to enter into a price-cutting campaign, but to appeal to the producing companies to co-operate. The price-cutting war in the Pacific Coast states, he said, was due mainly to overproduction, a situation never existent in British Columbia. Gasoline, he stated, was selling at 22 cents a gallon in Ontario, exclusive of the road tax. He also quoted prices of the commodity in other cities and states.

It was suggested at the conference that public organizations co-operate in requesting the Federal Government to appoint a commission to investigate the price of gasoline, but no official action on the suggestion was forthcoming.

TEXT OF RESOLUTION

"That this conference of directors of the Automobile Club of British Columbia, Victoria Branch, and representatives of the Motor Dealers Association and service station operators extend an urgent request to the companies operating in the province to immediately put into effect a reduction in the price of gasoline which will bring it within a reasonable comparison with that paid in other districts and with the lower prevailing prices of other commodities."

Announcements

What more can be said than already has been said of the necessity of taking care of your personal appearance? It is a fact that for months you have studied these advertisements. Are you still hesitating to seek advice and help from Miss Hamman? What a pity! Because the time you are putting up with imperfections you need not endure. 303 Sayward Building.

Your new coat may be wonderful—your hat quite smart!—and your frock most charming! But if your face is disfigured with ugly blemishes your efforts have been in vain! Far better that you should possess "a skin you love to touch"—even if it does mean wearing your old coat a little longer. Miss Hamman, 303 Sayward Building.

Masters' Health Bread is the outcome of 11 years' research, recognized by housewife and dietitian alike as the perfect brown bread. Hundreds of Victorians are its steady patrons, drawn by the flavor, held by the price. Try a loaf today. It is not a large investment to prove our statement.

City & District

Mayor Returns—Mayor Amos returned yesterday morning from a two-day business visit to Vancouver.

To Visit Salt Spring—It was announced at yesterday's luncheon of the Victoria Rotary Club that fourteen members and two ladies would visit Salt Spring Island tomorrow.

Zone By-Law Hearing—In order to receive an expression of opinion of the zoning amendment by-law, which is ready for the second reading by the City Council, a public hearing will be held in the City Hall next Wednesday afternoon at 2:30 o'clock.

Kinamen at Dinner—The Kinamen Club of Victoria held a dinner meeting last night in the Princess Louise private dining-room at the Empress Hotel. The after-dinner speaker was S. D'Arcy Carey, of the Maple Leaf Association. Stanley Mills, president of the club, was chairman.

Two Fire Calls—In their first run of the day, city firemen were called to the corner of Fort Street and Linden Avenue, at 12:29 o'clock yesterday afternoon, to extinguish a chimney fire. At 10:43 o'clock last night they visited 1085 Moss Street, where there was a small fire in the basement.

Oak Bay Fire—The new fire agreement with the City was ratified by the Oak Bay Council last night, whereby the municipality pays the city the sum of \$11,500 a year, provided the city agree to install better and more up-to-date equipment, including a modern pumper and ladder by the end of March, 1931.

Council Accepts Offer—The Oak Bay Council last night accepted an offer from P. Fox, architect, acting on behalf of W. H. Gee, for the sale of a ten-foot strip on the northeast corner of Foul Bay Road and Oak Bay Avenue for the sum of \$300. This will involve pulling down the present buildings, and it is Mr. Gee's intention to erect bank premises and three stores, setting back the building line ten feet.

Providers Active—Theft of \$250 in silver and a bundle of old blankets from their auction rooms, Paterson Avenue, same time Wednesday night, was reported to the police yesterday by Maynard & Sons, auctioneers. At 11:15 o'clock last night, E. Anderson, 1022 Collier Street, reported to the police that his dwelling had been entered during his absence. The providers are believed to have gained entrance by means of a pass key. Detectives are investigating.

Record Registrations—A total of 1,668 householders and licensees had registered at the city clerk's office up to 9 o'clock last night to have their names placed on the municipal voters' list. This figure exceeds by fifty-six the total number of registrants in 1929. During the past week the Gyro Club members have been active in urging persons to register their names, with the result that the total is greater than in previous years. The official lists will close at 5 o'clock this afternoon.

Wheat in Elevator—Grain in storage at the Alberta Wheat Pool elevator at Oudem Point had reached 250,000 bushels of prairie wheat at the close of operations yesterday. It was stated by local officials of the company, grain is continuing to pour into Port Mann for the Victoria elevator and it is the intention of the operating company to fill the house to its total capacity of 300,000 bushels. No announcement is made as to when the company will commence shipping.

Canadian Club Today—Major George W. Stephens, of Montreal, will address a luncheon meeting of the Canadian Club at the Empress Hotel at noon today. Major Stephens, who is touring the Dominion under the auspices of the central organization of the Association of Canadian Clubs, will address the members on "The St. Lawrence-Great Lakes Waterway," a project that has been the centre of interest throughout Eastern Canada and the United States. The address will be illustrated with lantern slides.

To Address Electors—Scheduled to speak in the North Vancouver by-election campaign, which will be the subject of a short and sharp three-day encounter of opposing political forces on the Mainland this week-end, Premier Toimie, and Hon. J. W. Jones, Minister of Finance, left for Vancouver yesterday afternoon. They were accompanied by Hon. R. W. Bruhn, Minister of Public Works, who will settle his private affairs at Salmon Arm before returning to Victoria to take on his new duties. The Premier and Mr. Jones were to address election rallies at North Vancouver last night.

TO OPEN B.C. AGENCY

Christie, Brown & Company, Ltd., bakers of the famous "Christie's Biscuits," have just announced that they will open a British Columbia agency on November 1, the offices and warehouse to be located in the large two-story building at 1200 Hamilton Street, Vancouver. L. W. McEwan, local salesman for Christie, Brown for the past several years, has been appointed sales agent. He will take charge of the agency from the date of its opening on November 1.

Lost or Stolen Where Is This Dog?

He lives in Esquimalt. Is he in Oak Bay, Saanich, James Bay or Sooke?

His description is as follows:
A Sealyham Terrier—Hair white, about 1 1/2 inches long, smooth on top of back. Body thick set. Weight about 30 lbs. Dark brown eyes with rims of black. Strong punishing jaw, no teeth missing, with very black nose. Right ear, one half (steely) missing, with very black nose. Right ear, one half (steely) black; left ear, small black spots under hair and steely black on tip of ear; also a patch of steely black on right side of head (not cheek). On neck, right side, under skin can be felt a hard lump about the size of a ten-cent piece. He will be bedraggled and dirty, perhaps dazed from hunger, misery and suffering. Please be kind to this dog if found!

There is a reward of one hundred dollars for his return. Phone 898. New phone number after November 1, G-5711

Women's Work and Institutes

Clubs and Societies

W.B.A. Card Party

An enjoyable bridge and partner whist party was given in the K. of C. Hall on Wednesday evening under the auspices of Queen Alexandra Review, No. 1, W.B.A. Prizes for bridge were won by Mrs. Fellow, Miss Ball, Mr. Fellow, Mr. Freeman and Mrs. Campbell. The prizes for partner whist were awarded to Mr. Aceman, Mrs. Stephen, Mrs. Clifford, Mrs. Robson, Mr. MacAllister and Mr. C. Hosking. Those in charge of the refreshments were Mrs. Adams, Mrs. Campbell and Mrs. Laxton.

Oak Bay W.A.

The Women's Association of Oak Bay United Church recently held a most successful tea and shower at

the home of Mrs. W. A. Guy, prior to the annual bazaar which takes place on Wednesday afternoon, November 5. Many donations of clever needlework and up-to-date novelties were received during the afternoon and the committee feels assured of a successful bazaar. During the afternoon Mrs. M. S. Moore was the recipient of a farewell gift from the members, carrying with it their appreciation of the work she has done during her ten years of association with the W.A. and regret at her leaving the city.

Hallowe'en Party

The members of the Young People's Society of the Victoria West United Church were the guests of Mr. and Mrs. J. Burgess, Selkirk Avenue, on Wednesday evening at a Hallowe'en party.

St. Columba's W.A.

The St. Columba's Church branch of the W.A. held the October meeting in Colquhoun Hall on Monday. In addition to the usual routine the

chief business on hand was that of settling the harvest supper accounts. Meglames Conner and Cox were hostesses for afternoon tea.

Centennial Girls' Club

Under the auspices of the Month Club, the Centennial Girls' Club will present a popular comedy, "A Teacher's Nightmare," in the social hall of the Victoria West United Church, on Friday evening, November 7.

MAYOR TELLS SINGLE MEN POLICY OF CITY

Only Destitute Unemployed to Be Given Assistance Under Any Civic Relief Scheme

"Any employment provided by the city for the unemployed single men must be in the form of providing assistance for those who are destitute," Mayor Anson told a delegation of five men from the ranks of the unemployed at a conference at the City Hall yesterday afternoon. The Mayor pointed out that the principle of civic employment must be based on the assumption that the man employed is totally without funds and has no way in which to provide himself with the necessities of life. In order to determine the situation as it actually exists in the city of Victoria a bureau will be opened on Langley Street today for the purpose of registering the single unemployed.

OPENING BUREAU

The idea of the bureau, which will be in charge of a competent official, will be to ascertain the number of single men at present out of work and to analyze the needs of each individual registrant in order that the civic authorities may be governed by official data in any future policy of relief.

It was suggested at the conference that the city would endeavor to take care of some of the men in public work on the basis of a dollar a day payment. This met with objections from the majority of the delegation, as it was considered the men might be sacrificing a principle in working for that wage. It was then suggested by the delegation that the men be paid at the rate of four dollars a day for two, three, or four days a month so as not to create a situation which might tend to bring down the rate of wages in the labor market in the community.

GOVERNMENT AID

Mayor Anson told the delegates that the public works committee had a meeting earlier in the day and following that meeting had interviewed the Provincial Department of Labor, but had nothing of a definite nature to report. "The city is willing to do anything within reason, but there is the question of money to be considered. There might be some way of taking care of a number of men on the dollar a day plan in making this suggestion I want it to be distinctly understood that I am not taking advantage of the situation to secure men for city work at a low rate of wages. I have always held out for fair wages in return for labor and will continue to do so. It is a question of the city's financial ability to meet the situation. We will do everything we can, you can be assured of that," the Mayor stated.

At the conclusion of the conference the delegates thanked the Mayor for his courtesy and his willingness to assist and stated they would take the suggestion of a dollar a day work back to their comrades for a decision.

INCOME OF ESTATES IS LIABLE FOR TAXATION

TORONTO, Oct. 30.—Commissioner W. A. Smith, of the Court of Revision, delivered an important judgment yesterday when he decided that the income of estates distributed by the executors is liable for income tax.

The National Trust and other trust companies argued that the assessment department had no right to impose a tax on the executors, which was payable by the beneficiaries, describing it as an indirect tax which the municipality had no right to levy.

The assessment department took the position that it was a direct tax on the income of the estate. At least \$500,000 of assessment is affected by the decision, which will likely be reviewed by the county judge.

Action for Libel

An action for libel has been launched in the courts here under which Duncan B. McLaren takes action against George A. Landie. The ground for libel is based upon certain letters addressed to W. A. Brethour.

HALLOWEEN SOCIAL

The choir of the Oak Bay United Church will hold a Hallowe'en social this evening at 8 o'clock.

Kitty McKay

By NINA WILCOX PUTNAM

The girl friend says yesterday it was baseball on the vacant lot. Today it is football and tomorrow it will be miniature golf!

"DEAD" YOUTH FOUND TO BE QUITE ALIVE

Was Officially "Buried" at Mission When Body Was Discovered On Railway Tracks

EDMONTON, Oct. 29.—Officially recorded in the files of the British Columbia Provincial Police as having been killed on the railway near Mission City, and officially buried in Vancouver by his family, Allan Kenneth John Lingard, aged twenty, suddenly appeared alive and hearty at the home of his uncle, C. A. Wilson, at Wainwright on October 24, according to a report received at Alberta Provincial headquarters from Sergeant Stewart, of the

Wainwright detachment.

Following the sensation caused by young Lingard's appearance, the family began to untangle the mystery.

The youth left the home of his mother, Mrs. Violet Farnsworth, 231 East Twelfth Avenue, Vancouver, about a month ago, and started to work his way to Alberta to engage in harvesting. Since leaving home until he reached his uncle's place he did not communicate with his family.

Shortly after Lingard had left Vancouver, what was supposed to be the body of the youth was found on the railway near Mission City. Chums of Lingard identified this body as Lingard's, as did his mother. The body was accordingly buried by the family.

Lingard himself knows nothing of his double, who is now buried under the name of

Mrs. Farnsworth, the mother of the boy, when interviewed here, declared she thought the dead youth was her son, as did several of his intimate friends. After comparing fingerprints of Lingard, which they procured at his home, and those of the corpse, however, city police came to the conclusion that the dead youth was not Lingard and that the Vancouver boy was still living. They had been working on the assumption since the accident at Mission, which occurred on September 25.

A firm of contractors advertised for a night watchman recently, and a smart, alert type of man turned up one morning.

He was asked: "Have you any previous experience?" "Oh, yes, sir," the man replied, "I have been a night watchman all my life. And have always been known to wake up at the slightest sound."

Hallowe'en Party
Miss Margaret O'Neill entertained the members of the Junior Catholic Women's League and their friends at a delightful Hallowe'en card party at her home on Chester Street on Tuesday evening. The decorations were carried out in true Hallowe'en fashion. Ten tables were in play during the evening and the prizes were won by Miss K. Nesbitt with highest score, Miss E. Cannon second, and Miss A. Hunter consolation. The players included Mrs. George Cox, Mrs. Rogers, Mrs. Masurati, Mrs. Mulligan, Mrs. J. Neary, Mrs. T. Brown, Mrs. H. Hall, Mrs. George Hartnell, Mrs. Cannon, Miss K. Nesbitt, Miss M. Cannon, Miss Eulalia O'Neill, Miss Helen

DANCE FOR SEAMEN
A social and dance was given at the Seamen's Home, Superior Street, for the crew of the S.S. Dalhousie, loading lumber at Ogden Point for Shanghai. Refreshments were served and bundles of magazines given to each man, all of whom expressed their thanks for a happy evening.

TO MAKE PRESENTATION
The Victoria Aerie, No. 12, will donate a cot to St. Joseph's Hospital on Sunday, November 2, at 2 p.m. President C. H. Lester, on behalf of the officers and members of the aerie, will make the presentation, and he requests a full attendance of both officers and members.

Home From Shawanigan Lake
Mrs. E. T. W. Pearce and Mrs. F. E. Young have returned after spending ten days at the Forest Inn, Shawanigan Lake.

Back From Vancouver
Miss Helsterman has returned to her home on Shasta Place, after spending ten days with Mrs. Arthur Smith, in Vancouver.

Return From Up-Island
Mr. and Mrs. Richard T. Hall have returned to their home on 10th Avenue after a motor trip Up-Island.

Dr. and Mrs. William J. Bruce, Hollywood Crescent, are leaving for Vancouver, where they will reside in future at the Capistrano Apartments, Comox Street.

To Live Here
Mr. and Mrs. A. Nairn Robertson and family, of Vancouver, have returned to take up residence in Victoria, and will spend the winter at 935 Foul Bay Road.

Following the success of their last dance and social evening, final arrangements were completed yesterday by the officials of the J.B.A.A. for their monthly Hallowe'en dance to be held at the club's headquarters at the George Hotel from 9 o'clock till 1 a.m.

Gingham and overalls will be the attire worn by the dancers. The dance committee, under the chairmanship of Mr. T. D. Roberts, has worked untiringly during the past fortnight, and it is hoped its efforts will be rewarded with a large attendance of members and their friends. Messrs. William Erickson, Harry Ward, Charlie Walls, Phil Ford, W. Loat, T. D. Roberts, J. A. Fouracre and Misses M. Banyard and Sadie Underwood are members of the dance committee.

HUNT CLUB TO MEET
The Victoria Hunt Club will meet tomorrow at 2:45 p.m. at the Willows.

PROGRESSIVE THOUGHT DANCE
The social committee of the Progressive Thought Temple, Vancouver, has decided to hold a social dance to be held at the S.O.E. Hall next Wednesday at 8:30 o'clock.

DON'T IGNORE WARNING SIGNALS
Headaches, Listlessness, Bad Breath, Backaches, Indigestion
—Stop Them with Kellogg's ALL-BRAN

This is a serious matter! You must conquer constipation! Stop it at once before its poisons get in their deadly work.

Nearly 90% of all sickness has its origin in irregular elimination. If you neglect the symptoms—constant fatigue, bad breath, headaches and coated tongue—you may be laying yourself open to permanent ill-health.

There's a natural, easy way to free yourself from this terrible scourge, once and forever. By eating regularly a delicious cereal—Kellogg's ALL-BRAN. Physicians recommend ALL-BRAN because its action is different from pills and drugs. Ordinary cathartics give only temporary relief, and are often habit-forming.

ALL-BRAN acts naturally, gently, its roughage sweeps the system clean of poisonous wastes and impurities.

And ALL-BRAN is a great aid to sleep in other ways. It contains

LOCAL A.Y.P.A. CLUBS
HEAR YEARLY REPORT
OF BRANCH SOCIETIES

At a meeting of the Victoria and District Local Council of the Anglican Young People's Association a report on the activities for the past year was submitted by Gen. Genn, past president. The report showed a decided increase in the number of members, and emphasized the efforts made to co-operate with the young people's organizations, and such events as the A.Y.P.A. conferences held both here and in Vancouver, as well as the furthering of young people's work generally by supporting the Young People's Interdenominational Board of this city. A reading of the financial report showed that the council had a comfortable margin of assets over liabilities.

Coming events that are claiming the attention of this council include an A.Y.P.A. revue, to be held in the Memorial Hall on Friday evening, November 1, when the members of the local branches of the A.Y.P.A. will share in providing an enjoyable programme. Arrangements are also in hand for a Pacific Coast A.Y.P.A. conference, to be held here on November 15 and 16, when some sixty delegates from this organization on the Lower Mainland will visit Victoria.

PIANOFORTE RECITAL
A pianoforte recital was given by pupils of Miss Helen Riley at her home in Gordon Head on Saturday evening. Many parents and friends of the young students were present. The following pupils took part in the programme: Dorothy Barnes, Jean Dawson, Evelyn Druce, Percy Barnes, Norah Macrotte, Lillian Le Coque, Muriel Mercer, Howard Frost, Ellen Breakell, Aileen Truonson, Annie Macrotte, Lorna Aitken, Dorothy Humeson and Hugh Ramsay.

METAPHYSICAL LECTURE
A metaphysical lecture, free to the public, will be given by Rose Humble tonight at 8 o'clock in the Absolute Science Centre, Arcade Building. Mr. Humble's subject will be "The Work of Emma Curtis Hopkins."

Hair Enhances
Beauty
Many an otherwise plain woman or girl is made attractive by the beauty of her hair. You, too, can add to your personal appearance by having your hair waved with a new method. **PERMANENT WAVE**. This method imparts to the hair a deep natural curl, whose lovely beauty remains until the hair grows out. It waves light hair equally as well as dark and results are 100 per cent satisfactory. Price is \$5, including shampoo and finger-wave. Given in Victoria exclusively by the **\$5 PERMANENT WAVE SHOP**, corner Fort and Douglas (upstairs in the new Kresge Building). Telephone 4087. (Adv.)

NECKLACES AND CHAINS
Beads of All Colors, Cut Crystals and Semi-Precious Stones Popular as Costume Jewelry

Beads and buttons of glass, crystal (colored or plain), onyx, jade, mother-of-pearl, or jet, made up into collars, necklaces, or chains, have almost superseded jewels in the daytime, says an article in The London Times. Never has the variety been greater or the arrangement more intricate.

A long chain of small flat jet buttons slung in circular clusters and interspersed with round paste buttons cut to a point forms a necklace for a black dress; flat opaque little buttons of an apple-green tint, slung in the same manner, look effective with balls of white cut crystal. Buttons of bone, crystal, and mother-of-pearl, made into chains and necklaces combined with globes and ovals of dental crystal studded with paste.

NEW GLASS BEADS
Tinted glass beads, for cheaper necklaces, look well enough when moulded into such shapes as dentils, ovals, spirals, rings, marbles, prisms, tubes, ships' buoys, and Chinese hats. They are sold either separately to be strung according to taste or already strung. One of the strung kind consists of tiny round beads in dim blue, pink, and grey, made of dull frosted glass and each studded with a paste dewdrop. Threaded close they make a rope necklet with bracelet; another set is in white and palest rose. There are also deep blue beads, like old Bristol glass—small round transparent globes strung to look like clusters of grapes.

LOVELY CRYSTALS
Cut crystal beads of apple-blue

son pink, "heavenly blue," a warm wine-amethyst, and various greens, form long chains. A pretty necklace is formed of white crystal grapes falling from a bell-shaped jade and hung on rings of green crystal beads which are slung on larger rings of frosted crystal. Another has flowers rather like fuchsias, a corolla of white crystal with stamens of paste, drooping from calyxes of jade which are circled at the top by a band of insect paste. The longer necklaces and chains are often finished with tassels of many small chains of jade and crystal beads. Some of them are suitable for the evening.

FOR MORNING WEAR
For the morning there are heavy necklaces longer than choicest. One made of large tubular oval links plaited into a rope, with a bracelet to match, is made of silver. Another, of flat disks of alternate crystal and jet, forms a kind of circular collar. This is also copied in black and white glass. Flat pale-green leaves of crystal are slung together with links of white crystal beads. Iridescent blue glass flowers composed another necklet; big balls of frosted glass, like snow compressed, and combined with jet beads, form others. Necklaces of Egyptian and Macedonian beads are strung amid leather balls and tassels and look queer and exotic. They harmonize well with tweeds.

In Paris, the whim of the moment is turquoise necklets of beads or real stones, which are worn with black and white.

Your Opportunity November 3 to November 8

NOW judge for yourself the thrilling progress of radio. New ideas! New heights of performance! New developments in design!—giving radio its rightful place in beautifying your home.

A model to suit every taste, every home, every pocket-book. All have the new Atwater Kent design, matched walnuts, finest cabinet work, genuine No-Mar finish, —no over-ornamentation. See for yourself, at any Atwater Kent dealer's in the coming week, this special Salon Showing—the kind of radio you like to live with.

Listen to the Golden Voice. It is already telling its story of truth and beauty in hundreds of thousands of homes. Critics say it's the last word in tone quality—the Golden Voice.

Open House at any Atwater Kent Dealer's

ANY Atwater Kent dealer is ready to prove this marvellous new set to you with a special demonstration. You'll enjoy this test. Ask for it. Try the perfected Tone Control. See for yourself how you can emphasize bass or treble at will, with a touch of your finger. Four definite shadings of the Golden Voice.

See the Quick-Vision Dial. The greatest aid to easy operation in all the years of radio. The whole range of stations is right in front of you—in figures so big that grandmother can read them from her chair. All station channels are clearly marked in kilocycles. Get the one you want in a split-second.

ATWATER KENT RADIO

with the **GOLDEN VOICE**

Find out why the whole world says:
"I'd rather have an Atwater Kent"

IN eight years of leadership, Atwater Kent has never before offered such value and completeness from every standpoint of radio desirability. With new, advanced engineering and Atwater Kent dependability. With the quality you've wanted in your radio, now within the reach of all.

Don't miss this Salon Showing—any day from Monday, November 3, to Saturday, November 8. And find out how easily you can own one of these new 1931 Atwater Kents.

OUT OF THE CROWD You'll pick the Williams Faces

Clean, fresh, smiling... and altogether prepossessing. That's how Williams shaves leave faces. That's how Aqua Velva keeps them, all day long. Quick, pure, moisture-laden Williams Lather to ease the razor's job; a dash of Aqua Velva afterwards to help take care of tiny nicks and cuts and condition the skin for wind and weather.

An overwhelming majority of Canada's barbers use Williams Lather... pure, mild, uncolored... the product of 90 years specialized study of skin, beards and shaving.

Williams Shaving Cream comes to you in large tubes at 35 cents and double-size tubes at 50 cents. Its companion luxury, Aqua Velva, in large 5-ounce bottles at 60 cents. Use both.

Perhaps you would like the novelty of Williams Shaving Liquid? Very new. Ask your dealer.

SHAVING CREAM AND AQUA VELVA

TWO FESTIVAL TEST PIECES BEING GIVEN AT MONDAY RECITAL

The Berceuse in D Flat (Chopin), to be played by Mrs. Sam MacLure at her recital on Monday, November 3, beginning at 8:30 o'clock, at the Shrine Auditorium, as well as

the Brahms' Valse, are among the test pieces to be used at the Victoria Musical Festival next year. Mrs. MacLure studied the Berceuse with Hermann Holtz, the famous Chopin exponent, and she learned to play the composition on a little one-manual organ. Her teacher, Holtz, was one of those selected to play at the Chopin centenary. On Monday evening, Mrs. MacLure

will play her own piano arrangement of the Magic Fire music by Wagner. "And did he live to tell the tale?" asked a listener, after the story of the traveler's amazing adventure had been told. "Oh, yes," replied the story teller, "in fact, he's done nothing else since."

CIVIC WOOD CAMP TO COMMENCE MONDAY

First Gang of Fifty Men to Be Taken in on Sunday Afternoon

Following a meeting of the public works committee of the City Council yesterday morning, it was announced that the wood-cutting camp at Waugh Creek, to be operated by the city for the relief of unemployed single men, would be opened next Monday morning. The camp will be operated under the relay system the first group leaving Victoria Sunday afternoon and arriving at Waugh Creek in time for supper. In the first group there will be between fifty and sixty men, who will work until the following Saturday night and quit camp Sunday morning in time for the second relay.

Under the system the rates of pay will be \$2 per cord. The men will pay \$1 a day for food and lodging. A camp supervisor has been appointed and stewards arranged for. The medical officer and sanitary inspector will inspect the camp.

THUGS WOUND OFFICER
CHICAGO, Oct. 30.—Three gunmen cruised past a Maywood street car and sent a volley of bullets crashing through its windows, seriously wounding a policeman who was to be a witness at the murder trial of "Three Fingers" Jack White, notorious gunman and "public enemy."

BROADCAST BRIEFS OF THE AIR

Walter Damrosch will conduct a thirty-piece symphony orchestra in the second movement from the great and beautiful Symphony in D Minor by Cesar Franck, a master of modern French music, as a feature of the General Electric Hour, over the National Broadcasting Company's coast-to-coast network tomorrow night between 6 and 7 o'clock (Pacific standard time). Another important classical contribution to the concert is the "Egmont Overture" by Beethoven, one of the most noted pieces of programme music from the pen of the immortal German master. KOMO will broadcast this programme for local listeners.

William Munday, the "Georgia Drawl," will cover the Princeton-Chicago football game when the Chicago gridiron classic is broadcast over National Broadcasting Company's network tomorrow afternoon from 11:45 to 2:30 o'clock (Pacific standard time). The game will be heard in the West over KOMO.

The allure of the circus has been caught in the Gilmore Circus, a thirty-minute programme to be broadcast over KOMO and the National Broadcasting Company system tomorrow night, starting at 8 o'clock (Pacific standard time). Familiar attractions of the "big top" are to be found in this atmospheric programme, with the promise of a liberal amount of music and comedy.

St. Mary's College will hold the centre of the radio stage tomorrow night when the Spotlight Review, weekly variety programme, is heard through Station KOMO and the National Broadcasting Company hook-up from 10:30 to 12 midnight. The football team of St. Mary's will be the honor guests in the San Francisco studios of the National Broadcasting Company.

VALUABLE FIND OF RECORDS IS MADE ON COAST

Provincial Archives Enriched By History of Kuper Island Mission

INDIAN SETTLEMENT HAD EVENTFUL LIFE

Valuable original records of the history of the New England Company, established by Royal Charter in 1649, and other material relating to the maintenance of the company's mission on Kuper Island, have been deposited with the Provincial Archives through the courtesy of the executors of the late Rev. Robert J. Roberts. It was stated yesterday by John Hoad, provincial archivist and librarian. The discovery of these interesting documents at the family homestead on Kuper Island was reported recently. The collection includes the personal diary of Mr. Roberts, who for over forty years labored at the Kuper Island and other missions, and whose name is today fondly remembered by the Indians there; journals and printed works of an early date; and a quantity of interesting photographic plates. The history of the New England Company is of more than ordinary interest, and relates to the operations of the company first in New England, later in Upper and Lower Canada, and more lately in British Columbia, where two mission posts were maintained. One mission was at Kuper Island and the other at Lytton. Mr. Roberts kept an accurate record in his diary between 1860 and 1904, and also in a log of his

Salada Orange Pekoe proves itself with the first sip

sloop, the H. L. Tibbals, describes much of his travels up and down the coast of British Columbia. Land on the island was farmed by the company, and later these holdings were acquired by Mr. Roberts, who has left a valuable and interesting record of pioneer days there.

Tomorrow (Nov. 1) at Midnight the Dial Telephone System will come into use

REMEMBER THE SIMPLE RULES

THE dial telephone system will come into use in Victoria tomorrow night, November 1, at midnight. Every Victoria telephone number will be changed. The new numbers appear in the new directory. Each of the new numbers consists of an exchange name (either "Empire" or "Garden") and four figures. Dial the first letter of the exchange name. Then dial each of the four figures. Before commencing to dial, take the receiver off the hook and listen for the dial tone, a humming sound which tells you that you may begin dialing. Keep the receiver off the hook while you are dialing. As soon as you have finished dialing, the telephone you are calling will ring. Or, if the called line is busy, you will hear the same "busy tone" that you do under the present system.

You
will find
the
dial
telephones
easy
to use

If you want further instructions after the new system begins, dial the figure "0" (Operator) and ask the operator who answers. If you want "Long Distance," dial 110. (No letter to dial). If you want "Information," dial 113. (No letter to dial). If you wish to call an Albion, Belmont or Colquitz number, dial the figure "0" (Operator) and give the called number and your own number to the operator who answers. If you wish to call a Keating number, dial 110 and give the called number and your own number to the long-distance operator who answers. In an emergency, you may dial the figure "0" (Operator) and ask the operator to call the police or fire department, or whatever you require. If you have a party line, to call another party on your line follow the instructions on Page Six of your new directory. Complete instructions regarding the dial telephones appear in your telephone directory. We also have a special dial demonstration office at 620 Fort Street (opposite the Pemberton Building) where our instructors will be glad to show you how to use the dial telephones. It is open from 9 a.m. to 9 p.m. daily.

BRITISH COLUMBIA TELEPHONE COMPANY

Please Don't Make "Curiosity Calls"

We urge you not to telephone your friends merely to try out the new system. An abnormal number of calls will hinder us in getting the apparatus working smoothly.

OBERRAMMERGAU AND THE PASSION PLAY TOPIC OF LECTURE

Impressions of Oberammergau and the Passion Play provided the topic of a lecture delivered to members of the University Extension Association at the Girls' Central School last night, by Professor F. G. O. Wood, B.A., of the University of British Columbia.

The speaker outlined the history of the great play which had a cast of over 600 people; told of time spent and the interest with which the villagers trained for their special parts, and paid a compliment to their wonderful ability.

Following the lecture some interesting pictures of the play were shown.

The speaker was introduced by G. A. A. Heiden, president of the association, who at the close of the address expressed thanks for the lecture.

It was announced that the next lecture will be held on November

13, when Professor D. Buchanan, M.A., will speak on "Is a University Worth While?"

ENGLISH WOMAN IS ARRESTED IN INDIA

NEW DELHI, India, Oct. 30.—Mrs. J. M. Sen Gupta, the former Nellie Gray, English wife of a former mayor of Calcutta, was arrested today with other congress volunteers as members of a group holding a meeting in defiance of a decree by the Viceroy against public assemblies.

Sen Gupta herself was arrested last Friday at Amritsar while addressing a public meeting.

SAANICH BOARD TO MEET

BRENTWOOD, Oct. 30.—The monthly meeting of the Saanich Board of Trade will be held in the Institute Hall, Brentwood, on Monday evening, November 3, when John Dean, of Victoria, will address the meeting.

Vancouver Island

COUNCIL CONSIDERS CHEAPER PAVEMENT

Proposal for Central Avenue Abandoned in Favor of Ratepayers' Representations

The Oak Bay Council last night abandoned its original proposal to install twenty-seven feet of macadam pavement, with durable curbs, on Central Avenue, from St. Patrick's Street to Newport Avenue. The action of the council resulted from the written opposition of more than 50 per cent of the property owners.

The estimated cost of the proposed work was \$22,000, of which the municipality would have paid 30 per cent.

As a result of petitions submitted last night, another and cheaper type of pavement will be considered, and the municipal engineer was instructed to look into the matter and discuss it with the petitioners.

INDOOR BOWLING

NANAIMO, Oct. 30.—On the local bowling alleys last evening in a Commercial League fixture the Eagles took two out of three from the Spencers, with L. Booth, playing for the Eagles, with high score of 281 and high average with 199.

The Bankers took two out of three from Lady Smith in the same league fixture. J. Morris, playing for the Bankers, was high scorer, with 245 and high average with 186.

In the Mixed League the K. K. K. Kids took two out of three from the Plaza, with Mrs. Good, playing for the Plaza, with high score of 172, and B. Bindon, for the K. K. K. Kids, high average with 150.

In the Mixed League the Pals took two out of three from the Capitol, with Mrs. Conway, playing for the Capitol, with high score of 267, and J. Deeming, for the Pals, with high average of 203. Mrs. Conway beat her high score of the season by one pin.

POLICE COURT CASES

NANAIMO, Oct. 30.—In the city police court this morning J. Katsoras, a local truck driver, appeared after remand on a charge of driving a car to the common danger, the charge against the accused being dismissed by Magistrate Potts.

The accused was charged with hitting two men, Nicholson and Kelly, residents of Cassidy, as they were walking across the street on Victoria Crescent, and having inflicted serious injuries.

James Saunders Penny, of Vancouver, who was charged with obtaining money under false pretences, was dismissed in police court this morning. It was alleged that the accused had accepted money from aliens on the claim he would secure their naturalization papers but failed to do so.

DUNCAN TENNIS CLUB

DUNCAN, Oct. 30.—The annual general meeting of the Duncan Lawn Tennis Club was held last night when officers for 1931 were elected as follows: P. Hoey, treasurer; W. Langtry, auditor; Miss president; W. M. MacLachlan, vice-president; M. R. Staples, secretary; Winifred Dawson-Thomson, Mrs. W. E. Corfield, S. J. Westcott, R. H. M. Shaw and J. H. Watson, executive committee.

A report was received from the pavilion committee, which showed a substantial amount accumulated towards the building of a new clubhouse. It is expected to augment this before the next playing season, and the committee was authorized to proceed with the building plans next Spring.

DEATH IN NANAIMO

NANAIMO, Oct. 30.—A resident of this city, in the person of Mrs. Mary McNeen, passed away at the age of eighty-eight years today at the home of her daughter, Mrs. A. Jenson, Seventh Street, Townsville, Native of Ontario, deceased had resided here for the past seventeen years. She leaves to mourn her loss three daughters, Mrs. A. Jenson, Mrs. Barclay, Portland, Oregon, and one son, C. McNeen, Los Angeles. The funeral will take place Sunday, Rev. Ermon officiating.

Farmers' Institute of Pender Island Meets

PENDER ISLAND, Oct. 30.—At a well attended meeting of the Farmers' Institute, on Tuesday evening, J. D. Terry, of the Provincial Department of Agriculture, gave his impressions received whilst attending the recent World's Poultry Congress at the Crystal Palace, London. Live exhibits were shown there from thirty different countries, many of the birds being sold by public auction during the congress. Great Britain spends \$100,000,000 yearly on imported eggs, and of this total 25 per cent comes from Ulster, where over eight million hens are kept. Canada only supplies 3 per cent of the total imports. Mr. Terry told of the big handicap under which Canada labors owing to distance from this fine market. Denmark, Holland, Belgium and Russia, on the other hand, are able to land eggs there from twenty-four hours to one week old.

It was predicted that Russia would be a very formidable competitor for dressed poultry and eggs in the near future. Mr. Terry admitted that the dressed poultry exhibited at the Soviet stall at the palace was the superior finish of any birds shown there, not excluding farmed Sussex fatted stock. At present there are nearly two hundred million layers in Russia, principally in Ukraine. It is claimed that they will have 400,000,000 at the end of the five-year plan.

A visit to the world's biggest poultry farm near Edinburgh was next described. An expenditure of over \$1,200,000 had already been incurred at this establishment, and it was claimed that it is only half completed. One hundred and twenty-five women and five men are employed there. The place is owned by one man. Seventy-two thousand chicks are hatched weekly, and including the cost of the electric incubators, Mr. Terry estimated that the electrical equipment must have cost at least a quarter of a million dollars. He added that the American visitors were certainly impressed, especially when shown electric floor washers that cost \$700 each.

Mr. Terry concluded by telling of the vast changes that have taken place in the British Isles during the last thirty years. The dole; the wonderful new brick and tile houses in which working people are now housed, especially in Scotland and England; the free medical clinics; the magnificent war memorial at Edinburgh Castle, and other matters of interest to Old Country people were touched upon.

TAKEN TO HOSPITAL

NANAIMO, Oct. 30.—Suffering from severe injuries to his back, sustained while at work on the Nanaimo Lumber Company's Railway at Nanaimo Lakes Road, Robert Dick, of Brechin, was removed to the local hospital yesterday afternoon. William Dick, his son, who witnessed the accident, said his father was jumping off a carload of poles, which he was in the act of unloading, when one of the forty-four poles slipped off after him, striking him in the back.

The injured man was immediately rushed to the hospital and the extent of his injuries will not be known until after an X-ray is taken.

FOR HINDMARCH CUP

NANAIMO, Oct. 30.—On the local golf course yesterday afternoon the final game in the two-ball mixed foursome for the Hindmarch Cup was played and the game was decided by the last putt on the eighteenth green. The winners were Miss Constance Pollock and Mr. P. Boylan, and the runners-up were Mrs. N. Corfield and T. D. Goldcutt. It was a great match. The losing team was giving quite a number of strokes and at one time had a decided edge on the game. However, the Pollock-Boylan duo picked up and succeeded in squaring the game and finally won the match and the cup on the last green.

NANAIMO'S HISTORY

NANAIMO, Oct. 30.—At yesterday's weekly luncheon meeting of the Nanaimo Gypsy Club, R. R. Hindmarch, of The Herald, gave a very interesting and instructive address on "Nanaimo, Its Past and Future."

"You should never believe anything unless you see it," he said, "and I believe you've got some!"

FIVE C'S WAY WITHDRAW FROM SENIOR SOCCER

Prairie Gridmen All Set for Title Game At Regina Tomorrow

Roughriders and St. John's Will Meet for Senior Football Championship—Great Tussle Expected—Calgary Juniors to Oppose Saskatchewan

WINNIPEG, Oct. 30.—Winnipeg's 145-pound edition of Yale's Albie Booth tonight had completed the process of dressing down and polishing his St. John's football machinery, and was ready to lead his Huskies into play down battle Saturday against Regina Roughriders at the Saskatchewan capital.

Slender little Tommy Moberly, who coaches his burly Saints on week nights and personally shows them the way in Saturday conflict, was satisfied his champions of Manitoba would get past their greatest obstacle—long, Western title path—Al Ritchie's Roughriders.

Ritchie, veteran mentor of many titled Regina teams, is likely to

send the same players against St. John's that he found good enough to whip Saskatchewan and Moose Jaw. One of the hardest-fought football struggles of the season seemed certain when the contender and defender clinched. St. John's went through their Manitoba campaign without having their goal line crossed. Moose Jaw counted the only touchdown made against the Roughriders.

Opening of the junior playdown schedule is slated for Calgary on the same day. Calgary's junior champions will meet Saskatchewan Hilltoppers, who won the Saskatchewan title when they defeated Regina Pats. The winner will meet Winnipeg National Sons of Canada team in the Western final.

Baby WEAVER — of Cumberland, Md. HAS 3 GREAT-GREAT-GRANDMOTHERS — 1929

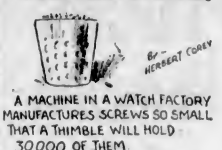

EXPLANATION FOR YESTERDAY'S RIPLEY CARTOON
The Famous Forger—Prices paid for rare signatures have tempted many swindlers, and the operations of the famous Spring are very notable. Spring, who died in 1876, had been so busy forging the names of Revolutionary patriots and Confederate leaders during his lifetime that he seldom wrote his own name. Today his autograph is a more valuable collector's item than the autographs from which his forgeries were made.

Please address all queries to Cartoonist Ripley, c/o King Features, New York City, N.Y.

Jackson Cup Is Awarded to the Jokers Eleven

At last the Jackson Cup has found a resting place until next played for at the latter part of this season. At a meeting of the Lower Island Football Association, Wednesday, it was decided to hand the trophy over to the Jokers, although it was not played for last season. President Brian, of the Jokers, attended the gathering and received the coveted piece of silverware.

ROBERT GRAY TO HEAD B.C. LAWN BOWLERS

Vancouver Man Elected President at Annual Meeting

SEVERAL CHANGES MADE IN RULINGS

VANCOUVER, Oct. 30.—Robert Gray, of the Vancouver Club, was elected president, succeeding R. C. Sparling, at the annual meeting of the British Columbia Lawn Bowling Association; D. M. Leith, of New Westminster, was elected first vice-president, and Walter Brian, of Kersisdale, second vice-president; J. T. Smith, official umpire; W. M. Cullen, Victoria, treasurer, and L. C. Jack, secretary, were re-elected. J. H. Lyons, of Revelstoke, was re-elected honorary president, and R. Barrell, of Nanaimo, honorary vice-president.

The meeting was largely attended. In addition to a full representation from city and district clubs, three delegates were present from Victoria and one from Nanaimo. All spoke enthusiastically of the progress of the game in their respective districts. In Victoria two new clubs have been formed and greens are in course of preparation. Cumberland has a new club and new greens. The Trail-Tadnanac Lawn Bowling Club is functioning at Trail, and several new clubs are being talked of at up-country points.

SEVERAL CHANGES MADE IN RULINGS
The secretary's report covered the season's operations, commencing with the departure of the Canadian team for New Zealand and Australia, and ending with the return of the Australian team returning from a visit to the British Isles.

SUCCESSFUL SEASON
The treasurer's report showed a healthy condition of the association, having gained slightly, in spite of extraordinary items of expenditure for entertainment.

THE rules of the game, which were adopted by the International Council in 1928, were fully considered and adopted. These rules will be printed in time for next season's play. Some interesting changes have been made, such as the rule for placing of the mat at commencement of an end. The mat can be placed anywhere between the last resting place of the ball and the point one yard from the ditch. This enables the player who prefers short ends to take his mat well up the green, instead of placing it at the end of the green, as in the past, a few feet from the ditch.

Another interesting change governs the penalty for laying a rink with one man short. Formerly the rink was one point for each end. The new rule calls for the short rink to deduct one-quarter of the score obtained.

FIELDING WINNER BY TECHNICAL KNOCKOUT

Local Boy Given Verdict When Kim Albertson Fought to Answer Bell in Second

TACOMA, Oct. 30.—Freddie Steele, Tacoma, 140-pounder, won a decision over Joe Coffman, of Portland, in the six-round main event of the ring programme here tonight.

Tommy Fielding, Victoria, technical knockout victory over Kim Albertson, of Detroit, when the latter was unable to report for the second round, due to an injured eye.

Hunters Bag Three Bears Near Sooke

Yesterday morning, Fred Good, Buster Heil and Leo Holden, star pitcher for the Jokers Ball Club, set out in search of bears in the Sooke district. Last night they returned at 10 o'clock with three bears, a mother and two cubs, after a great day in the woods. After trekking through the woods for several hours, the trio came upon the bears between Sooke Lake and Leechtown, about 11:45 a.m. The mother bear, a huge animal weighing close to 250 pounds, was the first to fall before the rifles of the hunters and the cubs followed one after another in rapid time.

Club to Hold Meeting Next Week to Decide On Future Activities

Churchmen Forced to Default Game Against Jokers Tomorrow—City to Meet Esquimalt and Thistles Will Clash With Victoria West

When the Five C's soccer eleven went down to defeat before the Victoria West aggregation by a 7-0 score last Saturday, it practically marked the beginning of the end of their sojourn in senior football, for this season at least, according to statement made last night by Percy Hope, manager of the Churchmen, who stated that following a meeting of the club next week, they may drop from the First Division competition.

Hope announced that he would be unable to field a squad against the Jokers tomorrow, and would be forced to default the match. The Churchmen's squad at the beginning of the year was practically the same as during the 1929-30 season, but with the forming of the Garrison eleven in the Wednesday League, they lost four of their best players, Edwards, Scanlon, Burgess and Quinn. From then on they became disorganized and have failed to show any form, losing all their fixtures by one-sided scores.

TWO GAMES CARDED

However, despite all this, two fine games are scheduled for the fans to take their choice. Bert Weatherall and youthful band of footballers playing under the name of Victoria City will be out at full strength in an attempt to halt the winning streak of the undefeated league leading Esquimalt eleven at the Central Park grounds in the feature game of the First Division card.

While the City aggregation are trying to perform a task that no other squad has been able to do, Esquimalt will clash at Beacon Hill Park in another fixture that should attract a bumper crowd, for

the simple reason that it may eclipse the City-Esquimalt game for action.

Doc Poynta will trot his eleven best players against the Thistles, a victory for the Greenshirts will put them right up near the top of the ladder. Bill Milligan, tricky inside right, who has not appeared since the first game of the season, will be out at his old position, while Peers, clever centre forward, will don a West sweater for the first time since last year. With Peers and Milligan on the front line of attack, the Wests will take the field slight favorites over the suburbanites.

LINE-UPS

Some line-ups for tomorrow's fixtures follow:

Sanich Thistles—Bridges; Armitage; Price; Williams; Joe Crowe; Jim Crowe; Vickers; Exler; Burns; Minnis and McMillan.

Five C's juvenile team to meet Oak Bay Sports at Oak Bay Park at 1:30 p.m., follows: Passmore; Jackson; Bishop; Bridge; Spillers; Leighton; Hodgson; Robin; A. Robit; Fielding and Tutill.

Five C's juvenile club to meet Sanich Buds at Poul Bay Park at 1:30 p.m., follows: Addie; P. Sands; S. Walker; G. Hope; J. Tucker; C. Lucas; S. Robinson; D. White; C. Moses; T. Daisell; C. Miller; Reserve, R. Campbell.

Esquimalt will clash with Victoria City at Beacon Hill Park at 7:30 p.m., follows: Peers; Nicol; Homer; Boyd; Nurse; Burnett; Blake; S. Stewart; John Watt and Wagland.

Sons of England, Division I, juvenile: Todd; Bridges; Thistles; Edwards; Fieldhouse; Edwards; Ward; Kennedy; Bichard; Miller; Young; Heddy and Hall.

SHARKEY OFFERED \$60,000 TO MEET STRIBLING AGAIN

CHICAGO, Oct. 30.—Match-maker Nip Lewis, of the Chicago Stadium, wired an offer of \$60,000 to Jack Sharkey, of Boston, for a bout with W. L. (Young) Stribling next January. Lewis said Stribling already has accepted terms for the bout. The offer to Sharkey is flat, carrying percentage privilege.

HUDDESFIELD AND ARSENAL WILL BATTLE

Leaders in English First Division to Meet in Important Fixture Tomorrow

LONDON, Oct. 30.—The feature game of the fixtures of the English soccer league on Saturday will be the meeting between Arsenal and Huddersfield Town at Huddersfield. The Londoners have now pulled out into a close two-point lead over Aston Villa and Sheffield Wednesday, who are bracketed in second place. The Villa meet Blackburn Rovers at Birmingham, while the Wednesday lock horns with Sunderland at Sheffield. On form the Villa and the Wednesday should win and if Huddersfield can beat Arsenal there can be a triple tie at the head of the championship table.

The Second Division Everton, leading the pack, meet Reading, who are the tailenders, and, of course, Everton should win. Preston North End, runners-up, will be hosts to Barnsley, and look like grabbing off a couple of points, which will leave the situation at the top of the table as it is now.

NOTES COUNTY LEAD SAFE
While North County leaders in the Southern Section of the Third Division, are travelers on Saturday, they should not meet defeat at Exeter City, and any event are so far out in front that their lead is in no danger. In the Northern Section Lincoln, the pacemakers, visit Rochdale, and the worst that should happen to them is a division of the points.

In the Scottish First Division two matches are outstanding. Celtic promptly after the previous League leaders Partick Thistle, at Parkhill, and a great struggle should result. Rangers battle with Aberdeen at Ibrox Park, and unless the former are definitely on the down grade, has been suggested by defeats they have suffered this season, they should garner a couple of points.

COLLISION ENDS WRESTLING BOUT

Sonnenberg First to Recover After Battering and Defeat Don George

LOS ANGELES, Oct. 30.—Gus Sonnenberg, 260-pounder, who claims he has the heavyweight wrestling championship successfully against Don George, former University of Michigan grid star, held off 10,000 fans here last night. The exhibition ended in a head-on collision of the grapplers in mid-ring, which knocked them both out, but Sonnenberg rallied first and rolled on top of George for the deciding fall.

Sonnenberg took the first fall in 45 minutes, 26 seconds, with a jack-knife arm scissors and a double wristlock. George took the second in 30 minutes 15 seconds.

The collision came in 12 minutes 2 seconds. An ambulance was called, but the wrestlers were not hurt seriously.

George was carried from the ring to the ambulance and taken to a receiving hospital.

GENE TUNNEY BEING SUED FOR BIG SUM

Breach of Contract Suit for \$500,000 Filed Against Former Heavyweight

CASE NOW BEFORE NEW YORK COURT

NEW YORK, Oct. 30.—Gene Tunney, former world's heavyweight boxing champion, offered Tim Mara \$250,000 in 1926 if he would intercede with the New York Boxing Commission to bring about the transfer of the championship bout to Philadelphia, where Tunney would fight Dempsey for the title.

Emory Buckner, Tunney's attorney, said today in outlining the case for the defence in Mara's \$500,000 breach of contract action.

Buckner said the defence was not going to hold anything back and was prepared to make public all of Tunney's dealings in the historic negotiations which finally resulted in the transfer of the championship bout to Philadelphia, where Tunney would fight Dempsey. The New York Commission declined to sanction the bout in this state.

As to Mara's claim he had a written contract with Tunney for 10 per cent of his earnings as title contender, which was arranged by the bout, Buckner said Tunney had agreed on terms with Tex Rickard four days before the date on which the alleged contract with Mara was drawn.

In outlining Mara's case, Martin Littleton said that he was prepared to prove that Mara had an oral contract with Tunney, giving him 25 per cent of the boxer's earnings from the Philadelphia bout, as well as the written contract for 10 per cent of all his future earnings.

After the attorneys had given their outlines the case was adjourned until tomorrow.

MINIATURE GOLF HAS CHAMPIONSHIP SERIES

Local Courses Have Arranged for Competitions Throughout Coming Month

The miniature golf tournament, which takes in the seven courses now in the city, will commence on Saturday and will continue until November 29. Under the arrangements made for this there will be formal entries made for use championships, which are two in number, one for ladies and the other for men.

Under the rules two games must be played over each of the courses in the specified time set aside for the continuation of the tournament. From these official scores the championships will be decided. The official score cards and entry forms are available at any of the courses included in the tournament plan. These are: Camosun, Library, Crystal Garden, Wee McGregor, Plus Four, Garden Court and Par Tee courses.

Gehrig Will Have Several Bones Reset

NEW YORK, Oct. 30.—Lou Gehrig, first baseman of the New York Yankees, last night became a patient at St. Vincent's Hospital, where he will have several bones broken. Gehrig's arm during the playing season did not heal properly, and bones in one finger and an elbow are to be broken and reset. Surgeons also will remove cysts from the end of the home-run slugger's right arm.

JOKERS TO WORK OUT

Jokers Football Club will hold a special practice tomorrow afternoon at 2:15 o'clock at the Victoria West Park. All players are requested to attend.

Grouse Season On Island Will End After Today

HUNTERS are reminded that the open season on blue and willow grouse throughout Vancouver Island will close after today. The season on deer in the Highland district will also come to an end, but sportsmen will still be able to hunt them in other districts until December 15. Pheasants and quail will close throughout the Island on November 15.

MANY NEW FACES TO APPEAR WITH DETROIT ICEMEN

Manager Jack Adams Has Only Six of Last Year's Players This Season

MANY YOUNGSTERS ADDED TO LINE UP

DETROIT, Mich., Oct. 30.—Seven promising newcomers to National League hockey, a new captain, and a new name for his club, are giving "Smiling Jack" Adams, manager of Detroit's ice squad, renewed confidence in his ability to land the team in the 1931 playoffs.

Because fans found it difficult to pronounce correctly the old title, the Cougars—officials of Olympia Arena, the club owners, have renamed the team. Henceforth it will be known as the Falcons.

Adams has drawn heavily from the minor league club, the Olympia last season, is being re-named the team. Henceforth it will be known as the Falcons.

Adams has drawn heavily from the minor league club, the Olympia last season, is being re-named the team. Henceforth it will be known as the Falcons.

From London, of the International League, Adams has obtained John Borrell, a wingman with a reputation as a stellar stick "inder and a high scorer in the minors last season. Stewart Evans, with the written contract for 10 per cent of all his future earnings.

After the attorneys had given their outlines the case was adjourned until tomorrow.

BOYCOTT THREAT DISTURBS MINOR HOCKEY LEAGUES

CHICAGO, Oct. 30.—Somewhat disturbed by the major league boycott threat, the American Association today attempted to call a conference of all minor baseball leagues to establish a definite policy in regard to the Iroquois draft controversy.

The decision to call the conference was reached after an all-day conference by American Association officials last night. The meeting probably will be called next month in Chicago.

Unable to agree with the minors on the draft, the majors warned that on and after next December 1 all relations between non-draft leagues and the major leagues would be severed.

WILLOWS DEFEAT J. B. A. A. SQUAD

Score One-Sided Badminton Victory Over Oarsmen—Battles to a Draw

J.B.A.A. badminton squads gained a draw and dropped one decision in their two exhibition matches Wednesday. The oarsmen's representatives, playing against the Y.M.C.A. on the latter's home floor, battled to a deadlock, six games each. Willows defeated the Bays' third-ranking players by thirteen games to three.

Scores, with the Willows and Y.M.C.A. players first mentioned, follow:

WILLOWS VS. J.B.A.A.
Women's Doubles
Miss E. Severs and Miss G. Hickey beat Miss Wylie and Miss Drysdale, 15-3.

Miss Benson and Smith lost to Mrs. Poynta and Clarke, 17-14.
Miss French and G. Phillips lost to Miss Cheer and Temple, 15-9.
Miss Grubb and Tolson beat Mrs. Thomas and Poynta, 15-4.
Miss Margery Benson and Webb beat Mrs. Poynta and Clarke, 18-15.
Miss Benson and Smith lost to Miss Weeks and Huxtable, 15-12.
Miss French and G. Phillips lost to Miss Cheer and Temple, 15-9.
Miss Grubb and Tolson lost to Miss Cheer and Temple, 15-10.

Roller Rink to Hold Carnival This Evening

The official opening of the Winter season will be ushered in tonight at the Gray Line Roller Rink, Yates Street, in the form of a monster Halloween carnival. Two special races will be held during the evening, one over the mile route, twenty-four times round the rink, for the men, and a half-mile race for the women. Prizes will be given for the best costumes.

DRAW IS ANNOUNCED FOR CALCUTTA MEET

The draw for the annual Calcutta fourfours, to be played during the month of November and the first week of December, at the Victoria Golf Club, was released yesterday by the secretary. The first round must be completed by November 9, the second by November 16 and the third by the end of the following week. The series will be played by November 30, and the winners will be named by December 7.

The draw, with handicaps, follows: W. P. Unsworth, and Dr. Garesche, 91 by 9.

J. E. Wilson and Colonel Bennett 81, vs. W. Pemberton and Dr. Plaskett, 101.

Alex Watson and Colonel Lightbody 81, vs. H. F. Hepburn and Captain Cox, 8.

A. B. Burton and H. A. Tomlin 61, vs. H. G. Garrett and C. J. J. H. P. Johnson and J. M. Nichol 61, vs. K. C. Allen and R. F. Castle, 6.

A. S. G. Musgrave and J. W. Morris 61, vs. Hew Paterson and R. H. Swinerton, 7.

A. Macpherson and Commander Powell 61, vs. Des Barrett and R. G. Christie, 6.

J. D. Campbell and J. McLaughlin 81, vs. K. M. Raymur and J. Nairn Robertson, 8.

Harold E. Haynes and Harold Bates 71, vs. J. B. Malson and L. de S. Duke 51.

R. Peachey and Carew Martin 81, vs. C. W. Pangman and R. R. Sutherland 91.

S. A. Haynes and A. D. Crease 71, vs. H. J. Davis and A. D. King 81.

A. H. Ford and D. A. Hogg 61, vs. Dr. Barrett and W. E. Campbell 71.

W. H. M. Haldane and J. Gray 81, vs. Harold Wilson and W. B. Leach 61.

Capitain Merston and R. W. Gibson 71, vs. W. A. R. Hady and Clarke Gamble 7.

W. L. McIntosh and H. E. Beasley 111, vs. L. S. V. York and A. E. Haynes 81.

R. H. Snape and N. F. Ferris 101, bye.

SUNDAY SCHOOL CAGE FIXTURES ARE ANNOUNCED

Schedules for Junior and Intermediate Boys' League Released

ENTRIES ASKED FOR GIRLS' DIVISIONS

The curtain will go up on the Junior and Intermediate Sunday School Basketball Leagues next Tuesday and Wednesday, respectively, according to the schedules released yesterday. Seven quinquies will compete for the junior title, and five will go out after the intermediate laurels.

Teams for the girls' junior and intermediate sections are requested to file their entries with Secretary Vivian Shoemaker as soon as possible, so that the schedules may be drawn up.

The schedule for the first half, with the dates of games, names of teams, hours of play and gymnasiums to be used, follows:

INTERMEDIATE BOYS
November 5—Royals vs. St. Aidan's, 7 o'clock at First United; Hustlers vs. Cardinals, 7 o'clock at Centennial.

November 12—Cardinals vs. St. Aidan's, 9 o'clock; First United vs. Hustlers vs. Cardinals, 7 o'clock at Centennial.

November 19—Royals vs. St. Aidan's, 9 o'clock; Centennial vs. Cardinals, 7 o'clock; St. Aidan's vs. Cardinals, 7 o'clock; Centennial vs. Cardinals, 7 o'clock.

November 26—St. Aidan's vs. Cardinals, 7 o'clock; St. Aidan's vs. Cardinals, 7 o'clock; Centennial vs. Cardinals, 7 o'clock; Centennial vs. Cardinals, 7 o'clock.

November 3—Royals vs. St. Aidan's, 7 o'clock; First United vs. Hustlers vs. Cardinals, 7 o'clock at Centennial.

November 10—Royals vs. St. Aidan's, 9 o'clock; First United vs. Hustlers vs. Cardinals, 7 o'clock at Centennial.

November 17—Royals vs. St. Aidan's, 9 o'clock; First United vs. Hustlers vs. Cardinals, 7 o'clock at Centennial.

November 24—Royals vs. St. Aidan's, 9 o'clock; First United vs. Hustlers vs. Cardinals, 7 o'clock at Centennial.

December 1—Royals vs. St. Aidan's, 9 o'clock; First United vs. Hustlers vs. Cardinals, 7 o'clock at Centennial.

December 8—Royals vs. St. Aidan's, 9 o'clock; First United vs. Hustlers vs. Cardinals, 7 o'clock at Centennial.

December 15—Royals vs. St. Aidan's, 9 o'clock; First United vs. Hustlers vs. Cardinals, 7 o'clock at Centennial.

December 22—Royals vs. St. Aidan's, 9 o'clock; First United vs. Hustlers vs. Cardinals, 7 o'clock at Centennial.

December 29—Royals vs. St. Aidan's, 9 o'clock; First United vs. Hustlers vs. Cardinals, 7 o'clock at Centennial.

JUVENILE SOCCER

Tomorrow at 1:30 p.m. the following teams in Division I, Juvenile Soccer League, will play:

Beavers vs. Sanich Thistles, at Lower Beacon Hill.

Sons of England vs. Oak Bay United, at Upper Central Park.

Let the Marvelube Correct Lubrication Chart be your guide for safe and sure Winter lubrication.

At The Playhouses

PLAYHOUSE Due to his excellent performance in "Hell's Island," the Columbia production, now showing at the Playhouse Theatre, Hosi has been given a new contract by that organization. According to the terms of the new contract, the actor will give his exclusive services to Columbia for some time to come. He is to be started during the coming year in a series of features written especially for him.

COLISEUM Just join in the chorus of any old song the canned music plays, and see what happens! There is, at the moment, temptation enough to do this. Your chief delight in "London Calling," now showing at the Coliseum Theatre, is sure to be Lily Morris. "Talkie" experts are all agreed that she has the perfect "talkie" voice. There is no noise like the changing of gears on the microphone when she records; even her sibilants reproduce clearly, without any backsliding of "s" into "sh." When her shade is singing "Why Am I Always the Bridesmaid" and "Only a Working Man," the makers of mechanized amusement must feel triumphant.

DOMINION While camping midway between two great African lakes, Paul L. Hoefler, whose superb picture of jungle life, released by Columbia, "Africa Speaks," now at the Dominion Theatre, was awakened one morning by whoops and blood-curdling yells. Calling his men together, Hoefler rushed out to find a band of natives in full war dress, who charged at them with spears held high. After giving the white men a few tense moments, the savages admitted that they had staged the attack to test the nerve of the civilized visitors.

COLUMBIA Moran and Mack made THEATRE their first picture, "Why Bring That Up," over a year ago, and it was, in a sense biographical, showing the progress of the Crows from the time they first went into vodvill. They were seen as natural (as far as their faces were concerned) and in burnt cork. But the new film, "Anybody's

AMUSEMENTS

On the Screen
Capital—Gary Cooper in "The Man From Wyoming."
Coliseum—"London Calling," with an all-star cast.
Columbia—Moran and Mack in "Anybody's War."
Dominion—"Africa Speaks," an adventure picture.
Playhouse—Ralph Graves in "Hell's Island."
Crystal Garden—Swimming and dancing.

War," presents them throughout as blackface characters from a little town in Tennessee who are swept into the glamor of the war.

CAPITOL Gary Cooper, the lanky THEATRE and handsome young man from Montana who scored heavily with audiences as "The Virginian" and "The Texan," heads the programme at the Capitol Theatre today and Saturday in "A Man From Wyoming"—which all serves to give additional proof that Cooper is a sterling actor no matter where his picture titles seem to have him coming from.

JURY PLACES BLAME FOR ALBERTA DEATHS

EDMONTON, Oct. 30.—George Dwernychuk, of Edmonton, was named by a coroner's jury in Smoky Lake, early last evening, as the killer of five persons slain near Smoky Lake on October 22.

It took the jurors just half an hour to reach their verdict. Five hundred persons jammed the interior of the hall in which the inquest was held and a hundred more looked through the windows. Inside a hundred stood on chairs and benches at the back of the hall, and some even perched precariously on top of a high platform at the rear.

Dial Phone System Marks Fiftieth Anniversary of Telephones in This City

First Exchange With Forty Instruments Opened in Victoria in 1880

Changing of the Victoria telephone system to the dial method of operation on Saturday night of this week, at midnight, has a historical significance, because it is fifty years ago this year that the first telephone exchange was established in Victoria. This city was the first community in British Columbia to have telephone service, and now it is to be the first major centre in the province to have a dial telephone system.

The changing of the system brings back memories of the day in 1880, half a century ago, when R. B. McKicking, who might be called the father of the telephone in British Columbia, and his venturesome colleagues, opened the first telephone exchange on Trounce Alley, with only about forty telephones. The telephone directory of that time was a card, and the telephone operators were boys.

MARCH OF PROGRESS

From this crude beginning the telephone system here has evolved into that which today serves about 17,000 telephones, with an admirable degree of rapidity and trustworthiness. The telephone pioneers felt their way forward through various stages of development, including the "high pole" stage, when eighty-foot poles adorned the streets. After moving from Trounce Alley, the Telephone Company had its operating room in the Five Sisters Block, and when that was burned it moved to the Bank of Montreal building, and finally, in 1912, the present central exchange building, on the corner of Blanshard and Johnson Streets, was completed.

Since then the switchboard has been added to from time to time until today it lines three sides of the operating room and about fifty

operators are at work during the busiest hours.

MAINTAIN STAFF

The operating room has at the present time a very congested appearance. While the girls have carried on with their task of giving service, men have been installing new switchboards and testing them, for, contrary to the belief of some people, telephone operators will still be required under the dial system. There will, for example, still be the long-distance operators to handle the ever-growing traffic to and from distant points. Also there is another switchboard known as the dial service "A" board, where a staff will handle calls of various kinds. Emergency calls, calls for numbers which have been changed, calls to Alhambra, Belmont and Colquitz, and various other classes of calls will be dealt with by these young ladies. The main switchboard will, of course, go out of action on Saturday night and will eventually be removed.

What kind of equipment is it that will make it possible for the Telephone Company to do away with the big switchboard and permit telephone users to call each other merely by twisting a little dial on the telephone?

NEW EQUIPMENT

A single-story addition, covering a space of 122 x 71 feet has been erected at the rear of the exchange building. It contains one large room with a high ceiling, and there is housed the new automatic telephone equipment. As you enter the room from the old building you see on your left row on row of high racks, some of which are covered with a maze of vari-colored wire, while the others have tiers of metal cases inside, which are intricate mechanisms actuated by magnets.

In the building there are over ninety thousand magnets and five million soldered connections. The equipment abounds with delicate mechanisms and thousands of devices for making and breaking circuits. Measurements are often in terms of thousandths of an inch and fractions of a second. Many of the magnets, for instance, have nothing to do but draw metal arms toward them only a thousandth of an inch, and yet that movement is sufficient to make and break circuits. The pull of a single magnet may break or make as many as a dozen circuits at a time. And as to split seconds, if it were not for the fact that some magnets were so made that they function a tenth of a second slower than other magnets, the new system would not work.

MECHANICAL ROOM

Test desks, motor generators, desks and card files, ringing machines and various other equipment lie in the right-hand section of the room, while in the middle is space for growth. In the basement is the room in which the big storage batteries are situated, ready to supply current at forty-eight volts to operate the system. Also in the basement is the entrance to the "cable vault," a concrete-lined tunnel which runs out under Johnson Street, and along which the underground cables make their way into the building. It was at the end of this tunnel that the telephone lines on their way to the old equipment were intercepted and wires spliced to them in order that they would be connected to the new equipment as well. This chore involved splicing new wires onto about fifteen thousand wires, and the work took many months to complete, splicers working down in this underground passage day and night.

CHOICE OF SYSTEM

The trend throughout the world is toward the dial system. When, several years ago, the B.C. Telephone Company was faced by the fact that the Victoria exchange was almost at its limit, it had three alternative plans of action. One was to install a second manual unit similar to that now in use. This would have meant that many calls would have required the service of two operators, with consequent reduction in speed and an increase in the possibility of errors. The second plan was to install a dial unit and work it in conjunction with the present manual system, so that some subscribers would have dial telephones and others the manual telephones. The third plan was to convert the whole Victoria system to dial operation, and this was the line of action decided upon. If the change to the dial system had not been made at this time it would not have been feasible for another fifteen or twenty years.

TOO MUCH FUN WAS HARD ON THE NERVES

"All work and no play makes Jack a dull boy."

Some philosopher made that remark, but two comedians, Bert Wheeler and Robert Woolsey, are responsible for reversing it to read, "All play makes wrecks out of Bert and Bob."

That proved to be literally true several years ago, according to Wheeler and Woolsey, who are the featured comedy team in Radio Pictures' musical laugh riot, "The Cuckoos," coming to the Coliseum Theatre tomorrow.

When the pair first teamed together they were ambitious to become the leading funmakers of the stage. They played being funny so much that they were both on the verge of nervous breakdowns within a short time.

Tomorrow the Coliseum Theatre is offering a special show for children, commencing at 10 a.m.

WARD FOUR SAANICH CONSERVATIVES MEET

A meeting of Ward Four, Saanich Conservative Association, was held in Marigold Hall on Wednesday evening.

The president, Henry Holmes, explained to the members the reason for a proposed amendment to the constitution of the association, which was to come before the central organization next month for ratification. The chairman stated that the alteration was necessary to legalize the position of the local ward with regard to paid membership, which had been arranged in such a manner that it would not interfere with the arrangements of other wards in Saanich.

Letters from Rt. Hon. R. B. Bennett and Hon. S. F. Tolmie, thanking the members for their loyalty and co-operation were read to the meeting. The proposed change in the constitution was also adopted.

LILLOOET RETURNS FROM SURVEY WORK ON BARKLEY SOUND

Hydrographers Discover Numerous Pinnacle Rocks and Shoals in Vicinity of Broken Group and Western Channels of West Coast Waterway While Sweeping and Sounding

Aerial Photography Possible Aid in Charting Coast Lines

ONLY located after most elaborate sweeping, a great number of rocks and shoals were discovered and examined in the course of the season's work about Barkley Sound, H. D. Parizeau, chief hydrographer for the Pacific Coast, stated yesterday. The survey ship Lillooet returned from the West Coast early in the morning, her decks loaded with the paraphernalia and launches employed by the several parties, making up the personnel, in the pursuit of their work locating the dangers that lurk beneath the surface of the sea water on the island coast.

SWEEP WIDE AREA
The Lillooet, after being remodeled last Spring, reached Barkley Sound on July 17, the main operations of the ship being confined to the southern part of the Broken Group and the Western Channel, where the survey demanded thoroughness, the rocks being mainly of a pinnacle character and numerous.

In addition to this work, the sur-

Federal Marine Minister Now on Way to Victoria

VANCOUVER, Oct. 30.—Hon. Alfred Durand, Federal Minister of Marine, will leave Ottawa tonight on a combined business and recuperative trip to the Pacific Coast, according to reports from the capital. The minister, who has just recovered from an attack of congestion of the lungs, will inspect the harbors at Vancouver, New Westminster and Victoria, and will confer with harbor authorities.

vey of the West Coast waters by at least five years. Some three thousand photographs would be available as a result of this effort on the part of the planes.

Mr. Parizeau paid a tribute to the airmen engaged in this aerial photographic work, which included the coastline from Port Renfrew to Clayoquot Sound, with Barkley Sound and the Alberni Canal. One machine, was busy practically continuously, while at times an extra machine was utilized. This phase of the work was under the direction of Lieutenant-Commander Finney.

VISIBILITY POOR

While the season was most favorable for progress with the inside work, the hydrographers were handicapped in connection with the outside work, heavy fogs prevailing offshore, and only rarely were conditions ideal for any kind of survey. Visibility being limited from three to five miles, whereas some observations require a distance of twenty miles, while in many places soundings must be carried out fifty miles from land before the 100-fathom area is passed.

LARGE-SCALE CHART

Besides the work accomplished by the Lillooet, Mr. Parizeau's assistants in charge of the Houseboats Pender and Somas covered considerable marine areas. Commander J. H. Knight, of the Pender, surveyed the whole of the Alberni Canal from San Mateo Bay, including Uchucklet Inlet, right up to the Sonoma River, taking in Alberni and Port Alberni as well, making, in addition, a large-scale chart of the latter harbor. Completing this work, the Pender was employed during the latter part of the season on coastline and sounding among the Broken Group, Barkley Sound.

The Somas, in charge of L. R. Davis, surveyed Effingham Inlet, Useless Arm, Rainy Bay and the upper portion of Middle Channel, Barkley Sound, and the latter until the season terminated, the Somas was engaged on coastline and soundings in the Broken Group.

SIX WEEKS MORE

Six weeks' work next Spring will complete the survey of Barkley Sound, Mr. Parizeau concluded. Up to the present time, just four and one-half months have been occupied in charting the waters of Barkley Sound and Alberni Canal. Now in Victoria, the majority of the staff have started their winter work mapping the results of their surveying.

The Lillooet left last night for Vancouver, where she will remain for several days returning here, the work of sweeping Victoria Harbor along the wharves will be completed, as well as that portion of the harbor area dredged during the past summer.

SOUTHERN PACIFIC BRIDGE COMPLETED

For the ceremonies attending the dedication of the new Martinez-Benicia bridge across Suisun Bay, an invitation has reached E. E. Blackwood, from the Southern Pacific Railway Company. The bridge will be formally dedicated on Saturday, November 1.

At the dedication, Southern Pacific locomotive No. 1, the C. P. Huntington, which was brought to Sacramento by sailing ship around Cape Horn in 1884, will lead the first official train across the bridge. There will be a pageant, water carnival, air circus, fireworks and many other events.

The new bridge is 3,600 feet long. The total weight of the steel in the superstructure is 44,000,000 pounds. The bridge rests on ten main piers, and twenty-two pedestal piers, containing 105,000 cubic yards of concrete and 1,800 tons of reinforcing steel. The depth of the pier is 207 feet from bedrock to bridge seat and has a base forty by sixty feet. This bridge is seventy feet above water, and has a 328-foot lift span which can be raised 135 feet above water in ninety seconds by either electric or gasoline motor power. The lift span is the largest in the world and weighs 1,500 tons.

HYDROGRAPHIC Survey ship Lillooet, which has been engaged in surveying Barkley Sound and the West Coast between Clayoquot and Bonilla Point, returned to port yesterday with equipment, having finished outside surveying for the season.

TRANSPACIFIC SHIP CLEARS FOR ORIENT

With 1,925 Passengers Aboard Empress of Japan Sailed for Night via Honolulu

With 1,925 passengers in all classes aboard, the Canadian Pacific liner Empress of Japan, Commander S. Robinson, R.N.R., O.B.E., proceeded outbound for Oriental ports via Honolulu at 6 o'clock last evening, having docked at Rihet piers from Vancouver at 4:15 o'clock after making a good run down, Pilot Roberts reporting no fog on the way.

A number of passengers boarded the big ship on arrival here, among them seven who had missed getting aboard the liner before she left Vancouver. They came on the Canadian National ferry boat Prince David, among the travelers from Victoria were Mrs. E. S. G. Dottridge and daughter, Miss Annette, of London, who have been visiting relatives here and who will depart at Honolulu; Mrs. Fred Pollard and Miss Louise Pollard, who will spend Christmas with relatives; and Mr. and Mrs. Eric Birch-Jones, en route to Hawaii.

Among the prominent passengers outward bound from Vancouver were Allan Cameron, Oriental manager of the Canadian Pacific Railway Company, and formerly of Victoria, going to Hongkong, his headquarters, after which he formed a "very enjoyable visit to the head office of the company at Montreal"; Perry Burgess, New York, in charge of transportation League of Nations and the Leonard Wood Memorial Fund, en route to Bangkok and Manila, where international meetings of the League of Nations will be held in January; Lieutenant-Colonel G. W. Birks, Montreal, on a world tour, who will spend considerable time in the Orient before continuing.

Colonel O. Godson-Godson, Vancouver, making an Oriental tour; O. A. Walker, Hong Kong, traffic manager, Kowloon-Canton Railway, returning home after a holiday; Mrs. T. Hayakawa, Tokyo, wife of Seisaku Hayakawa, Japanese movie star, and Bishop and Mrs. P. B. Kern, Bishop, W. R. Beacham, Dr. W. C. Cram, Hon. Levis Thomas, Rev. J. V. Moore and Miss M. K. Howell all of Nashville, members of the Methodist Episcopal Church Commission, en route to China.

BOYD AND CONNOR REACH AMSTERDAM

CROYDON, Oct. 30.—Captain J. Errol Boyd and Lieut. Harry P. Connor, transatlantic aviators, who recently flew here from Newfoundland, left Croydon in the same Columbia monoplane today for Berlin.

BERLIN, Oct. 30.—The offices of Luft Hansa received word late this afternoon that Captain J. Errol Boyd and Lieut. Harry P. Connor, who left Croydon in their transatlantic monoplane Columbia, this forenoon, had landed at Amsterdam. It was not expected they would take the air again until tomorrow on their flight around Europe.

Byrd Will Get Navy Cross for Flight to Pole

WASHINGTON, Oct. 30.—Rear Admiral Richard E. Byrd today was awarded the Navy Cross for "extraordinary heroism" exhibited in his flight over the South Pole. Secretary Adams will present the medal on a date to be announced later.

CARRIERS OF CARGO

From the United Kingdom, via Panama and California ports, the Donaldson freighter Salsaria docked at Rihet Piers at 7:30 o'clock yesterday morning and proceeded to Vancouver at 10:30 o'clock, after discharging 100 tons of general cargo.

The San Pedro was at the Canadian Puget Sound Mills wharf yesterday loading 650,000 feet of lumber for California. She is due to sail this afternoon. The Lydia, from the West Indies, with a salt shipment for local discharge, is due at Ogden Point Piers today.

The Dalair was scheduled to sail for Shanghai last night after loading 600,000 feet of lumber. At Esquimaux, the Heardon Smith freighter Quebec City is anchored awaiting orders to proceed to her loading berth at Vancouver.

RUTH ALEXANDER IN

Leaving San Francisco two hours late, the Pacific Steamship Company's coastal vessel St. Ruth Alexander, Captain Frank Landstrum, made a good run north, docking at Rihet Piers shortly before 12 o'clock last night. For Victoria the Ruth had thirty passengers and forty tons of freight. She was scheduled to sail two hours after her arrival for Seattle.

PILOT WIEN'S BODY EN ROUTE TO COAST

Liner Victoria Bringing Bodies of Fathers Delon and Walsh To Seattle

FAIRBANKS, Alaska, Oct. 30.—Airplanes zoomed low in a last farewell today to Ralph Wien, pilot, killed recently when the missionary plane, Marquette, crashed at Kotzebue, as a train bearing his body departed for the Coast.

The body is being taken by the widow, Mrs. Julia Wien, and her two small sons, to Cook, Minn., for burial. Mrs. Wien's mother was to meet her in Seattle.

The liner Victoria is on its way to Seattle carrying the bodies of Fathers Philip I. Delon and William F. Walsh. Father Delon will be buried in Spokane and Father Walsh in Oakland.

Oil companies in Venezuela are expected to resume their development plans shortly.

AIR FORCE DIRECTOR ON INSPECTION TOUR

Wing Commander Broadner Paying Visit to All R.C.A.F. Units in Dominion

VANCOUVER, Oct. 30.—Wing Commander L. S. Broadner, D.S.C., acting director of the Royal Canadian Air Force, arrived in Vancouver this morning in the course of an inspection of all R.C.A.F. units in the Dominion.

Wing Commander Broadner has been flying since 1915. He went overseas in December of that year,

ORIENT LINER DUE

Inbound from Oriental ports, the American Mail Line Ss. President Jefferson, is due to arrive at William Head at 7 o'clock tonight, according to advices received yesterday at the local office of the steamship company. This should bring the liner alongside Rihet Piers at about 6:30 o'clock. The Jefferson will remain at the wharf until 2 o'clock Saturday morning, when she will leave for Seattle. Among her passengers is Harold Bromley, who is returning to Tacoma.

Round the WORLD CRUISE

Palatial white Empress of Australia "puts out to sea" from New York Dec. 2 for her 137-day cruise of the world's most fascinating spots. Christmas in the Holy Land, New Year's Eve at Cairo, India in cool January. Cruise-ship luxury and world-famed service. Rates \$2,000 up.

Mediterranean

The most enchanting highlights of the Mediterranean are visited by the Empress of France on her 75-day cruise, sailing from New York Feb. 1. 18 days in Palestine and Egypt—lengthy visits ashore at every point of greatest interest. Rates up from \$900. Descriptive folders and all rates from your own agent or

How to Assist the Digestion

THE most dictatorial digestion is open to argument if you only select the right argument. Thus, many a man has found a virtue in "White Horse" taken just before or just after lunch or dinner. And, of course, you know that "White Horse" Whisky is non-gouty.

"White Horse" is so richly matured, so safe and so sound and so certain in the good it does.

OILS ARE WEAK;
MINES INACTIVEHome Leads Downturn With
Net Loss of 6 Cents—
Calmont Drops 6 Cents

PREMIER ADVANCES 20

VANCOUVER, Oct. 30.—Weakness in the oil and a slight increase in trading volume marked today's session of the Vancouver Stock Exchange. Home Oil led the downturn with a 9-cent decline to 2.31, while Calmont was off 6 cents to .41. Three-cent losses were suffered by

Mayland and Eastcrest, while A.P. Consolidated, C. & E. Corporation and United dropped two cents each. Mines were quiet with Premier Gold gaining 2 cents to .80, the only change of note.

GOLD SHIPMENTS

MONTREAL, Oct. 30.—With a further \$1,000,000 in gold due here tomorrow from New York, the total of gold moved to Canada since the movement started in July will reach \$30,500,000. Canadian funds continued strong in New York today, despite the recent gold shipments, holding steady at a premium of 5-32 per cent, or sufficient to warrant profitable shipments of the yellow metal. Tomorrow's shipment will be consigned to the Royal Bank of Canada.

TORONTO MARKET

TORONTO, Ont., Oct. 30.—The afternoon session was productive of few changes on the Toronto Stock Exchange today. Massey-Harris advanced again, showing a gain of 1.3-4 points at 16 3-4. Hayes Wheel jumped four points on one sale of five shares, but buyers were willing to pay the higher price for a board lot.

Bell Telephone and Brazilian were steady, but C.P.R. eased fractionally to 43. Ford, Canadian Dredge, Steel of Canada, Service Stations, Standard and Paving closed with small net losses.

ONTARIO GOLD STRIKE

TORONTO, Oct. 30.—One of the samples taken from the main showing of the Bannockburn gold discovery in Matchewan, assayed at the Provincial Assay Office, shows a result of \$45.80 per ton, according to a report by H. C. Rickaby, provincial geologist. Mr. Rickaby is of the opinion that next summer will see intensive prospecting in the area, which he states is geologically favorable for gold deposits.

CITY BANK CLEARINGS

Total clearings at the Victoria Clearing House for the week ending October 30 were \$1,903,222. For the corresponding period last year they were \$3,301,140.

THREE VICTORIA
FIRMS ENTER IN
BUSINESS HERE

Vancouver Island Community Investments, Limited, Capitalized at \$100,000

TEN COMPANIES TAKE OUT INCORPORATIONS

Three Victoria and seven Vancouver firms were incorporated this week, not including the licensing of one extraprovincial company. Vancouver Island Community Investments, Limited, with capital of \$100,000; Dinmore Brothers, Limited, \$20,000; and the P. & P. Pure Foods, Limited, \$10,000, are the Victoria firms listed. The complete list is as follows:

Apartment Builders, Limited, \$75,000; Vancouver.
Builders Lumber & Supplies, Limited, \$25,000; Vancouver.
Dinmore Bros., Limited, \$20,000; Victoria.
E. J. McClellan Company, Limited, \$10,000; Vancouver.
Little Park Golf Club, under the Societies Act; Vancouver.
P. & P. Pure Foods, Limited, \$10,000; Vancouver.
Ridgway Audit, Limited, \$10,000; Vancouver.
Robson Hotel, Limited, \$25,000; Vancouver.
Trans-Pacific Import & Export Limited, \$25,000; Vancouver.
Vancouver Island Community Investments, Limited, \$100,000; Victoria.

Leavitt Naugle Company was registered as an extraprovincial firm, authorized to do business in British Columbia.

FEDERAL BANK RATE

NEW YORK, Oct. 30.—The New York Federal Reserve Bank today announced no change in the rediscount rate of 2-1/2 per cent.

That Body of Yours

By James W. Barton, M.D.

HEALTH LIKE A BANK ACCOUNT

I often speak of health as an asset; in fact good health is the greatest human asset. With good health you are capable of doing the things that your brain and ambition direct. Without good health you cannot accomplish the things you would like to do in life.

Someone has likened health to a bank account, which doesn't increase in size of its own accord. This bank account of health was given to you partly by your parents and partly by your own care, your own common sense.

However it is not like a savings account which increases as the years pass. It is like a current account which will not increase in size unless you make a deposit from time to time. And if you make no deposits but keep checking out all the time, the account will decrease and gradually disappear.

Of course you know what I mean by depositing something in your bank of health. It means the watchful common sense care of the body; not eating too much too often; but eating enough and often enough; not sleeping too much, but sleeping enough; and taking enough exercise—very few will ever take too much.

Checking out means that you do the foolish, the careless, the thoughtless things that rob you of some of that health you have stored up; eating anything, anytime, anywhere, trying to get along without enough sleep; and working your brain continually and your body not at all.

One of the deposits must take the form of active exercise out of doors, as Dr. L. Langstroth points out. I believe this is where most people fail.

Yet this deposit really pays a large dividend from a health standpoint. Gladstone, as you remember, said, "Exercise of the body pays a larger rate of interest than any other investment."

We can't all chop down trees, as was his custom, but everyone of us can do something outdoors every day, if only to walk a few blocks at a brisk gait.

Be careful of your bank account of health. It is your most valuable possession. Remember that if you make regular deposits you can likewise check out large amounts, which means being able to work hard or play hard.

WESTERN PROVINCES BOARD IS PLANNED

OTTAWA, Oct. 30.—Confirmation of the proposal to form a Western Provinces water board for the regulation of waters in lakes and streams of the Prairie Provinces and the Northwest Territories was made today by Hon. Thomas G. Murphy, Minister of the Interior.

The dispatch from Winnipeg is substantially correct," Mr. Murphy stated. J. T. Johnson, director of the Dominion Water Power and Hydropower Service, the minister said, would be chairman of the new body.

Important News
In U.S. Banking
Field Is Coming

By CHARLES W. STORM
(Copyright, 1930, by the North American Newspaper Alliance.)

NEW YORK, Oct. 30.—While brokers were worrying about the future of the stock business because of further heaviness in the stock market today, there was a distinct feeling of optimism prevalent in the inner offices of the important banking institutions by reason of knowledge that one of the most important steps taken to better the banking situation is now under way and likely to be consummated within the next forty-eight hours.

The developments which are now under negotiation will relieve a situation which has been a source of much gossip in banking circles throughout the country. Amelioration of this situation will do much to improve confidence of the banking fraternity throughout the country and loosen up the gates of credit.

Important banking interests declare that there is no question, but what business is showing improvement in innumerable directions notwithstanding the contraction being reported in the steel industry.

Banking interests admit that there is still some "frozen" situations to be loosened up by liquidation, but the recent beneficial developments in the banking situation will permit these situations to be cleaned up over a longer period of time, thus eliminating urgent selling of securities.

MONEY MARKET

LONDON, Oct. 30.—Bar silver, 161-2d per ounce. Money, 13-8 per cent. Discount rates: Short bills, 2-1/2 per cent; three months, 2-1/2 to 3-1/2 per cent.

AT NEW YORK

NEW YORK, Oct. 30.—Call money steady, 2 per cent all day. Time loans steady; sixty days, 2-1/2 to 3-1/4; three to four months, 3-1/2 to 4-1/4; five to six months, 4-1/2 to 5-1/4. Prime commercial paper, 23-4/8. Bankers' acceptances unchanged.

FIRM EXPELLED

NEW YORK, Oct. 30.—The New York Stock Exchange today announced the expulsion of G. Laie Forman and Morrison E. Orr, members of the firm of Prince & Whiteley, which recently was suspended for insolvency.

G. K. ALEXANDER ACQUITTED

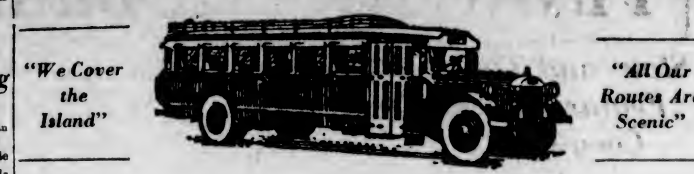

QUEBEC, Oct. 30.—After only ten minutes of deliberations by the jury in the criminal assizes, a verdict of not guilty was returned in the case of G. K. Alexander, former employee of the Home Copper Corporation, a subsidiary of the Nor-

anda Mines. Alexander was charged with theft, corruption of employees, and conspiracy.

At a first trial, held at Amos, Abitibi, last year Alexander was condemned to a one-year term in jail for the same offences, but had appealed and secured a new trial.

Dame Clara Butt, the opera star, will soon arrive in Japan to make the first English phonograph records ever produced there, and in Tokyo she will sing with native musicians for the recorder.

ISLAND COAL IS GOOD COAL

YOUR TON OF ISLAND COAL IS THE MINER'S BREAD & CHEESE

EVERY ton of Island Coal taken from the earth insures one day's maintenance for a miner and his family. To you it's probably just "coal" . . . an "unavoidable expense". What does it matter where it comes from, so long as it warms the house?

But wait a minute! There's more in this than meets the eye.

Don't let's forget that on Vancouver Island is one of British Columbia's major industries . . . coal mining. Every dollar we send out of the community for non-Island coals . . . or for fuels other than coal . . . is a dollar less in the pockets of our own people.

You can do your bit toward the relief of unemployment by buying Island Coal. Thus you will be making not only a practical investment in Home Industry, but you will be making a definite improvement in the economical operation of your own household.

Nanaimo-Wellington and Comox Coals show a better average of B.T.U.'s (heat units) than other coals sold locally. Island Coals are uniformly good coals. They burn freely, easily, have an exceptionally low moisture content and if governed by automatic control, yield more heat for every purpose.

Choose a reliable dealer from this list. He can show you how it is to your advantage to buy Island Coal. And remember, with your order on file, he is saving your money and making it possible for at least one miner's family to forget for a day the menace of unemployment.

These are common sense facts . . . of vital importance to all who live on Vancouver Island or in Greater Vancouver.

Coughs and Colds

What an annoyance is the common cough! Whether at home or in public, the person with a cough becomes a nuisance and a menace. And yet a cough is so easily relieved when you use Dr. Chase's Syrup of Linseed and Turpentine. Why not use this time-tested treatment at the first sign of trouble in your throat and avoid the annoyance and dangers of more serious developments.

Dr. Chase's Syrup of Linseed and Turpentine

APPLICATIONS For the Position of Road Superintendent

(With Engineer's Qualifications Preferred) for the Municipality of North Cowichan, will be received by the undersigned until 12 o'clock noon on Tuesday, the 4th November, 1930. Salary, \$175.00 per month, successful applicant to provide his own means of transportation.

H. M. ANCELL, Municipal Clerk, Box 366, Duncan, B.C.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Wharf, Kaslo, B.C." will be received until 12 o'clock noon, Friday, November 21, 1930, for the construction of a pile wharf and dredged timber superstructure wharf at Kaslo, Kootenay District, B.C.

Plans and form of contract can be seen and specification and forms of tender obtained at this Department, at the offices of the District Engineer, 115 Baker Street, Nelson, B.C., Victoria Builders' Exchange, 2505 First Street, Victoria, B.C., and The Building and Construction Industries Exchange, 343 West Pender Street, Vancouver, B.C., also at the Post Office, Kaslo, B.C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein. Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 per cent of the value of the tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd.

Note—Blue prints can be obtained at this Department by depositing an accepted cheque for the sum of \$20.00, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid. By order, N. DEMARADIS, Secretary, Department of Public Works, Ottawa, October 24, 1930.

CREDITORS OF B. C. BOND CO. HOLD MEETING

Report by Custodian on Financial Condition is Presented

ROYAL TRUST COMPANY IS ELECTED TRUSTEE

Creditors of the B.C. Bond Corporation, Limited, meeting in the Courthouse yesterday, elected the Royal Trust Company as trustee, and T. L. Swan, J. S. Braidwood and J. H. Hill inspectors, to conduct the liquidation of the corporation.

F. E. Winslow, Victoria manager of the Royal Trust Company, has been acting as custodian. According to the estimate of the assets given in the report presented to the meeting, secured creditors will be paid in full, and a balance will be left sufficient to pay unsecured creditors about one-fourth or one-third of the amount due them. It was pointed out, however, that the assets consisted largely of shares and other securities, the value of which is given as estimated for October 9. What amount may ultimately be realized from these assets cannot yet be predicted with certainty.

LOSS OF \$30,000 IN 1929

The balance sheets of the B.C. Bond Corporation, Limited, showed profits of \$41,000 and \$21,000 in 1927 and 1928, respectively, and a loss of \$30,000 in 1929. It is stated in A. N. Mouat's report that the affairs of the corporation were approaching a crisis a year ago, and that some what hasty and illegal appointments were made to the board of directors. The custodian reported that the failure was due mainly to shrinkage in the value and marketability of the company's securities. He added that "buckling" was not indulged in, and the company had not engaged in stock speculation on its own account. Questioned as to whether any securities owned by clients had been pledged illegally, he answered that investigation would have to be made in each case, and

MAYNARD & SONS AUCTIONEERS

MAYNARD & SONS Auctioneers Phone 837

there had not yet been time for this. The business of the liquidators would be conducted in the present premises for a week or two, before moving to another office, and all creditors who wished for information were invited to call there.

PURPOSE OF MEETING

B. H. Tyrwhitt Drake, official receiver, in opening the meeting, stated that its purpose was to put before the creditors a statement of the affairs of the company, and to have them elect a trustee and inspectors to conduct the liquidation of the business. Mr. Drake presented to the meeting the statement of assets and liabilities and other statements, prepared by Lamay, Boston & Holden, chartered accountants. He read also the statements made on examination by A. L. Neelds, secretary of the B.C. Bond Corporation, which included answers to questions as to the profit and loss shown at the end of each year, and reported a loss of \$30,000 as shown for 1929.

TRUSTEE ELECTED

Nominations for trustee being called for, the Royal Trust Company was unanimously chosen, it being understood that Mr. Winslow, manager of the company, would continue to act. T. L. Swan, J. S. Braidwood and J. H. Hill were the only nominations for inspectors and were elected.

Mr. Winslow then reported as follows:

"As custodian I am now prepared to make a report to you and as a preliminary will read a condensed statement of assets and liabilities as prepared by the auditors which has been approved by Mr. A. N. Mouat, who has charge of the company's office for the custodian. "The duty of a custodian is to take over the assets of the company, to conserve these, to prepare a list of the creditors, to convene a meeting and to acquire himself as far as possible with the actual position of the company and present his findings to a creditors' meeting. "The time may have seemed ample to go into all of these matters in detail, but when I tell you that the final statement was only presented to me yesterday, you will understand that neither Mr. Mouat, who has had charge of the company's office and affairs for me, nor myself have had an opportunity to look into all past affairs.

VANCOUVER COMPANY

"I have visited the Vancouver office of the B.C. Bond Corporation, Limited, incorporated on October 2, and which is still carrying on business. All of the shares of this company are held by the B.C. Bond Corporation, Limited, which is pledged along with other securities to Norman F. Lang, of Vancouver, a former director of the company, to secure a debt of \$15,000, which consisted of cash advanced by him during the last week of the company's existence. "Apart from assets which appear in the condensed balance sheet there are no assets in Vancouver of any account. I have also visited the Nanaimo office and arranged to have it closed. The small bank balance of the office was transferred to the custodian's bank account as appears in the statement.

NEW BALANCE SHEET

"Those of you who were present at the first meeting will notice that drastic changes have taken place in the balance sheet which was filed with the official receiver. The statement filed with me was that of September 30, and was filed as such. It is the October 9 balance sheet which I am submitting to you. Many changes have occurred since then: I will propose to confine myself to the statement as at that date. "You will notice in the present balance sheet that total liabilities are shown at \$284,000. To this should be added approximately \$57,000, which is shown as a deduction from the secured creditor's account which, in the ordinary course, would appear as part of the total liabilities and the securities show as an asset. The form provided in the Bankruptcy Act, however, makes it necessary to show the account in this way.

SECURITIES PLEDGED

"Of the liabilities, \$206,000 is shown as secured. This balance consists of loans from banks and balances due to brokers. Of the securities pledged \$57,000 was the property of the B.C. Bond Corporation and the balance of \$149,000 was the property of clients. "Among the assets you will note that bad and doubtful accounts totaling \$83,000 are shown as having a value of \$12,000. None of these accounts are secured and represent undermargined accounts. Between \$12,000 and \$15,000 of these accounts which are shown as bad are due to directors. It is perhaps only fair to say that the two largest amounts, totalling about \$12,000, were incurred while these persons were acting as salesmen on commission. Since the bankruptcy of the company one of these directors has paid \$850, being the proceeds of the sale of his automobile.

ROCK GAS COMPANIES

"The amounts advanced by the company to the two Rock Gas Companies is shown at face value as they are difficult to value at present. I have interviewed Mr. Smith, who is in charge of both of these companies, and he believes that given a reasonable amount of time he will be able to work the debts out. The trustee and the inspectors will have to decide on a policy to be pursued in connection with these assets. "The proposition, rightly managed, has, I believe, merit, and I have been approached by several persons already with proposals to purchase. "Mr. Smith assures me that he can carry on without further capital and the inspectors will have ample time to consider the matter carefully. "At the time the advances were made to these companies, the shares in them were apparently registered in the name of the individual members of the company. Some little time ago, however, these shares were handed over to the B.C. Bond Corporation.

PREFERRED STOCK

"Several persons appear as holders of preferred stock of the B.C. Bond Corporation who claim that they did not subscribe for stock, but merely loaned certain amounts to Mr. Boorman's request to tide the company over a trying period. It is possible that they may later ap-

pear as creditors instead of shareholders.

"Many questions have arisen as to the ownership of stock held in New York for the general account of the corporation, and also in regard to clients' securities pledged to the bank. Court proceedings are available to ask the trustees in many cases; in others, it may be necessary to ask an opinion of the court. "The reports prepared are, I believe, complete in so far as they show where everything is and give the trustees a real starting point. CAUSE OF FAILURE

"I would like to add that so far as I have ascertained the books appear to be in order. Bucketing was not indulged in and the situation that you find yourselves in appears to have been arrived at gradually and to be due to shrinkage in the value and marketability of the company's securities, changing a substantial surplus into a deficit. "It is now your privilege to ask questions of the custodian and the directors. Unfortunately Mr. Boorman, whom I saw yesterday, is unable to be present and his doctor has so certified. Mr. Boorman, I might say, was anxious to be at the meeting but, as stated above, was not physically able to attend. "After a discussion of the balance sheet, it is your duty to appoint a trustee and not more than five inspectors. My own suggestion is that three inspectors will be most satisfactory."

MR. MOUAT'S LETTER

The clear and unambiguous nature of the financial statements given to the creditors was the subject of much comment. In presenting them to the custodian, Mr. Mouat wrote: "124 Government Street, Victoria, B.C., October 30, 1930. "E. Winslow, Esq., Custodian, B.C. Bond Corporation, Limited, in Bankruptcy, Victoria, B.C. "Dear Sir:—In handing you here-with the report of Lamay, Boston & Holden, chartered accountants, accompanied by the several statements prepared by them, I beg to submit that an examination of the state of affairs as revealed by these documents indicates that the ultimate return to the creditors depends very largely on the repayment of the advances to the 'Rockgas' and 'B.C. Bond' Companies, together with the collection of those items shown in the list of debtors as 'doubtful' and 'bad,' and which have been so valued owing to their not being secured. "Unnecessary lawsuits would, of course, be disastrous to the interests of creditors, while on the other hand an improvement in market conditions should naturally add to the value of securities held. "The fact must not be overlooked that the statements submitted and prepared from the latest available information and that the figures appearing therein may require to be adjusted when the final reports are received, but it is not anticipated any such adjustments will be of material amount. "Included in the list of debtors are amounts owing by two of the directors, one of which, \$749.69, is valued 'doubtful,' and the other, \$831.81, as 'bad.' There is also an amount of \$3,911.49 standing against an ex-director, valued 'bad,' but since the assignment of \$850 has been received in reduction. "It is to be noted that somewhat hasty and illegal appointments were made to the board, also that had an intelligent examination of the operations and accounts of the corporation been made a year ago it should not have escaped notice that the affairs of the corporation were approaching a crisis. "In conclusion, I would add that members of the staff have co-operated and given all possible information and assistance. "Yours truly, A. N. MOUAT."

ASSETS AND LIABILITIES

The statement of assets and liabilities, as on October 9, was:

Assets

Stock-in-Trade—Bonds and Stocks at market value, \$58,949.63
Less Hypothecated 87,224.68

NOBEL PRIZE FOR MEDICINE AWARDED

Dr. Karl Landsteiner, Bacteriologist and Pathologist, Receives Recognition for Discoveries

STOCKHOLM, Oct. 30.—Dr. Karl Landsteiner, eminent bacteriologist and pathologist, who since 1922 has been a member of the Rockefeller Institute for Medical Research in New York, today was awarded the Nobel Prize for medicine.

It was the first of this year's awards to be announced and was made by the Stockholm Faculty of

in classifying different types of human blood. The prizes for chemistry, physics and literature will be announced early next month. The Swedish Academy of Science, which bestows those in chemistry and physics, is scheduled to meet on November 13. The Swedish Academy of Literature will meet either on the same day or a week earlier.

LONDON, Oct. 30.—Arthur Daisley, wireless operator of the British dirigible R-101, who survived the disaster, has been awarded the "Medal for Meritorious Service of the Order of the British Empire, Civil Division," for his bravery in remaining on duty after the crash despite his injuries.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

CREOMULSION FOR THE COUGH OR COLD THAT HANGS ON

the words under discussion, though in modified form. This sentence originally read: "The people's government, made for the people, made by the people and answerable to the people." It was here that Daniel Webster, Abraham Lincoln and many other orators received their inspirations for the use of the sentence as it stands as the title of this story. VATICAN CITY, Oct. 26--Pilate Leon, representing the International Telephone & Telegraph Company, of New York, today presented the Pope with a new telephone instrument of gold and mother-of-pearl, engraved with the papal coat of arms. The corporation installed a new telephone system in Vatican City recently as a gift to the pontiff. This will begin to function about November 15.

DECISION IS RESERVED IN AH FOOK CASE

Accused in Trial for Assault
Maintains He Was
Not Present

CHINESE MARRIAGE LAWS REFERRED TO

The taking of evidence in the Ah Fook case was concluded before Magistrate Jay in the police court yesterday morning. The decision of the court with respect to whether the accused was guilty of assault upon Ng Shue in the woodshed of her home on the night of September 24 was reserved until next Wednesday. This delay was taken following the address of counsel in order to allow the magistrate to review the evidence.

The proceedings yesterday were confined almost altogether to the cross-examination of Ah Fook by R. C. Lowe, counsel for the private prosecution.

The accused persistently disavowed that he was present on the occasion of the assault. Considerable attention was paid to the relations between the accused and the young daughter of Ng Shue, who had on the previous day in the witness box taken the full responsibility for the attack upon her mother.

LOVE AFFAIR

Ah Fook gave his age as twenty-seven and said he had been born in Victoria. His marriage had taken place in Victoria, but there was no minister; it had been carried out under the old Chinese laws. His father arranged the whole matter. He liked Doris Lee as a friend and admitted that from her actions he believed she might love him, but he could not tell "what her real heart was."

On the day before the assault he had agreed with the girl to let this whole matter of keeping company together drop.

In reply to a question as to whether he would have married the girl as a second wife if he had the money, he said he would be agreeable to do so, but added:

"I have not the money; how could I marry her?"

He also admitted that at one time he had gone to Vancouver with the girl and had registered under the name of Sam John, the name under which he was known among the white men here. He could not recall whether she was registered as his wife. They stayed together. The girl had told him that she got her mother's consent to go.

WOULD HAVE MARRIED
To Frank Higgins, K.C., counsel for the defence, the accused said, "If I had the money and the girl liked to marry, I would not mind marrying her."

He said that under the Chinese law a man could have a second wife. He had, he said, seen nothing wrong with going about with the girl.

Mr. Higgins, in summing up the case, contended that it was impossible on the evidence to convict. The two people who were admitted present, the mother and the daughter, gave contradictory evidence. He admitted that it was evident that the mother was trying to excuse the daughter, while the daughter was seeking to screen the accused. The two witnesses were discredited by each other.

Mr. Higgins felt that the moral aspect given to the case should not have any part. It was nothing but a case of guilt or not in an assault. Mr. Lowe argued that in effect there was not the contradiction in the evidence of the two witnesses. The mother had positively testified that the accused struck her in the eye, which showed that he was present.

What Today Means

"SCORPIO"

If October 31 is your birthday, the best hours for you on this date are from 9 a.m. to 10 a.m., from 2 p.m. to 3 p.m., and from 6 p.m. to 7:30 p.m. The danger periods are from noon to 1 p.m. and from 10 p.m. to 11:15 p.m.

Disconcerting influences will be in force on this date, and you will abandon profitable for unprofitable pursuits. Frustration of plans. New interests will spring up, which will prove to your benefit. Worry regarding your people.

The child born on this October 31 will have an active, a self-confident and fruitful mind. Ardour and perseverance, generosity and enthusiasm are shown. It will love pleasure, amusement and show. It will take an interest in scientific studies, and the investigation of facts. You have a very positive nature, but one which needs to be toned down to make it an altogether pleasing one. You are extremely honest, sincere and outspoken, but you do not know the meaning of diplomacy and are always unconsciously putting your foot into things or "spilling the beans." You will always be a diamond in the rough, but none the less genuine. You will merrily romp through the world in your clumsy way, always ready to help and cheer those about you. You have a heart of gold, and are unselfish and generous to the nth degree. You are very clean-minded, and clean-mouthed.

You are rather master-of-fact in religious views, taking the intellectual or even somewhat materialistic view of things rather than the devotional and spiritual. You have an analytical mind, one which classifies, analyses, studies and draws conclusions; doubting until it has reasons for believing, and always requiring reasons for all things—"a why and a wherefore." It would always be best for you to be your own boss in your work, for it is not easy for you to be subservient to others. You are sometimes lacking in method, wanting in application, or are absent-minded, but on the whole you are a good worker. You will be passionately fond of a home, have the qualifications to make a devoted and sensible father or mother, and a faithful companion.
